

Science Continuum P-10

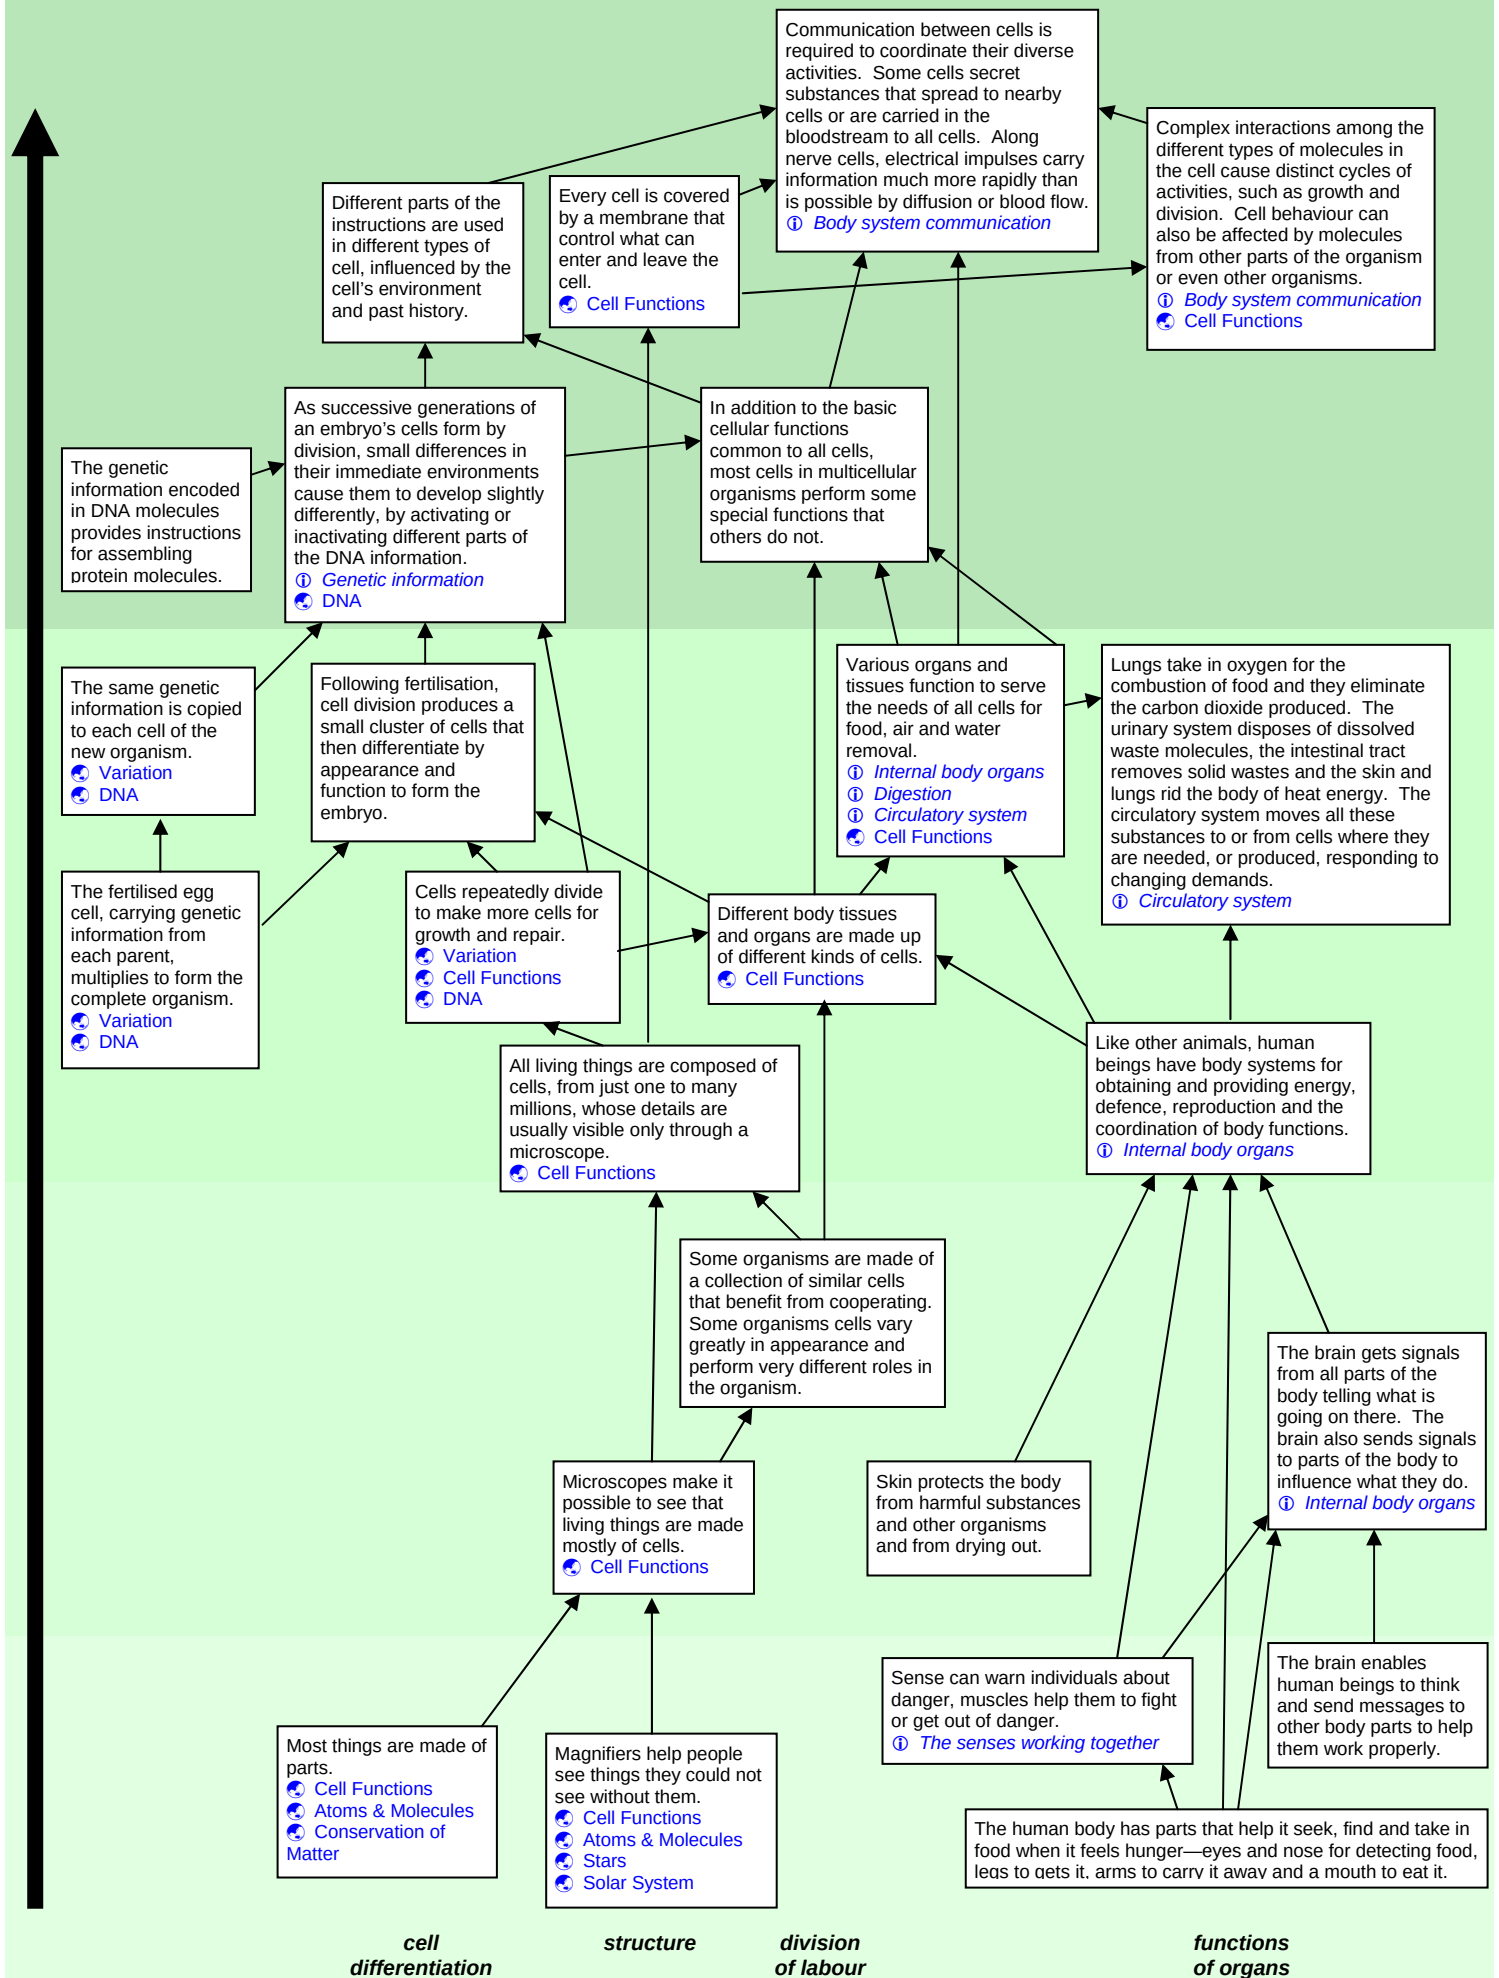

Biological Evolution

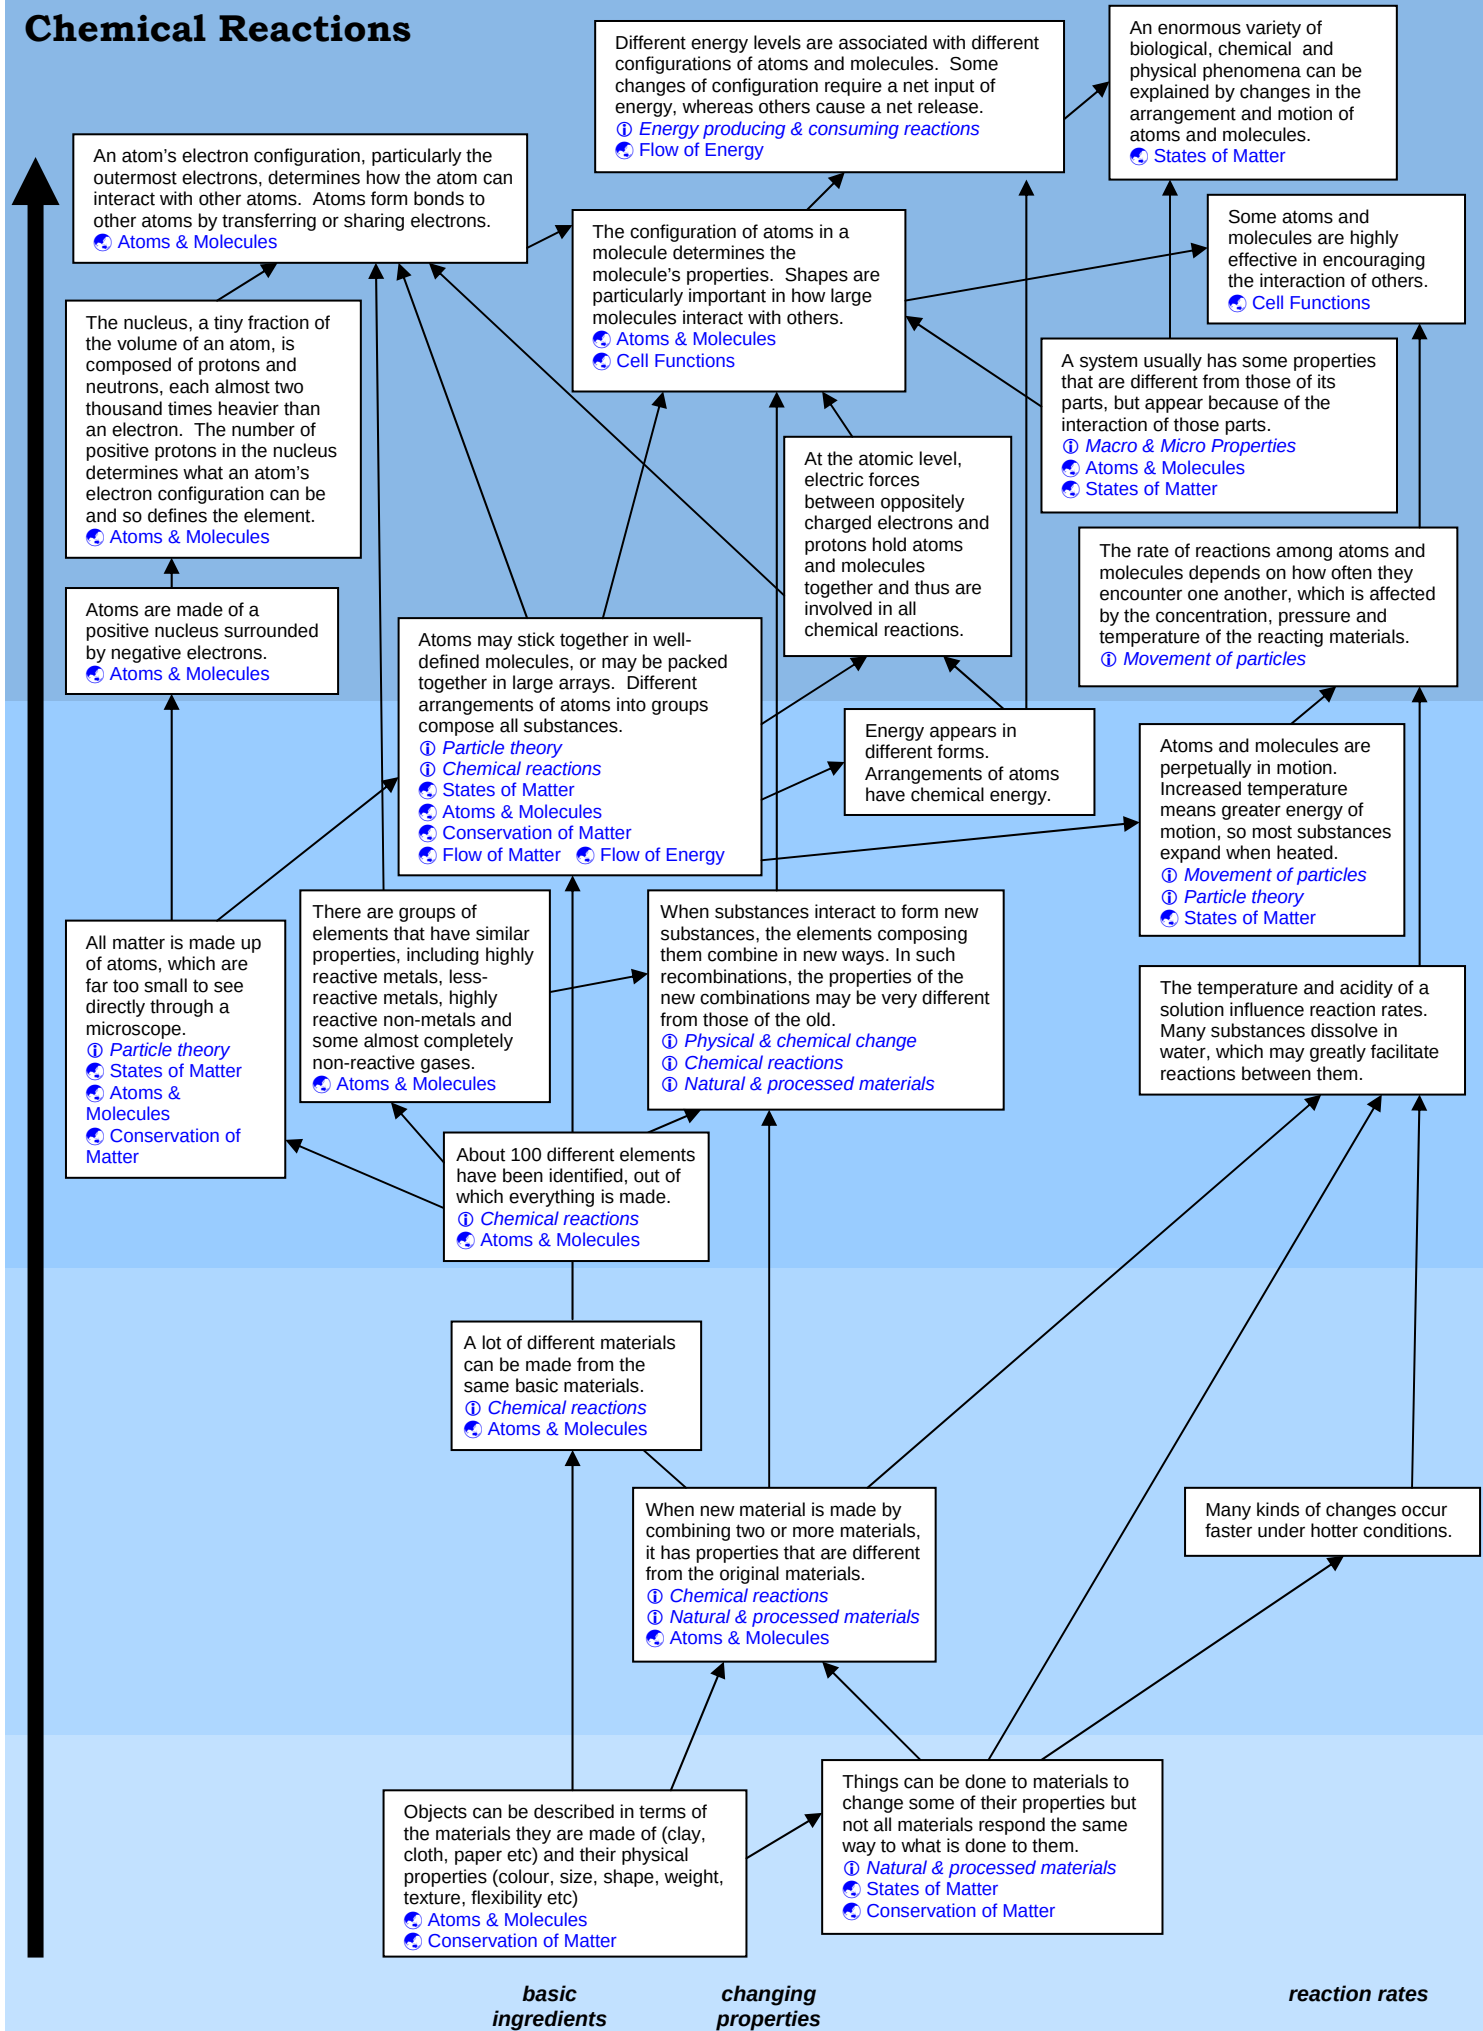

Cell Functions

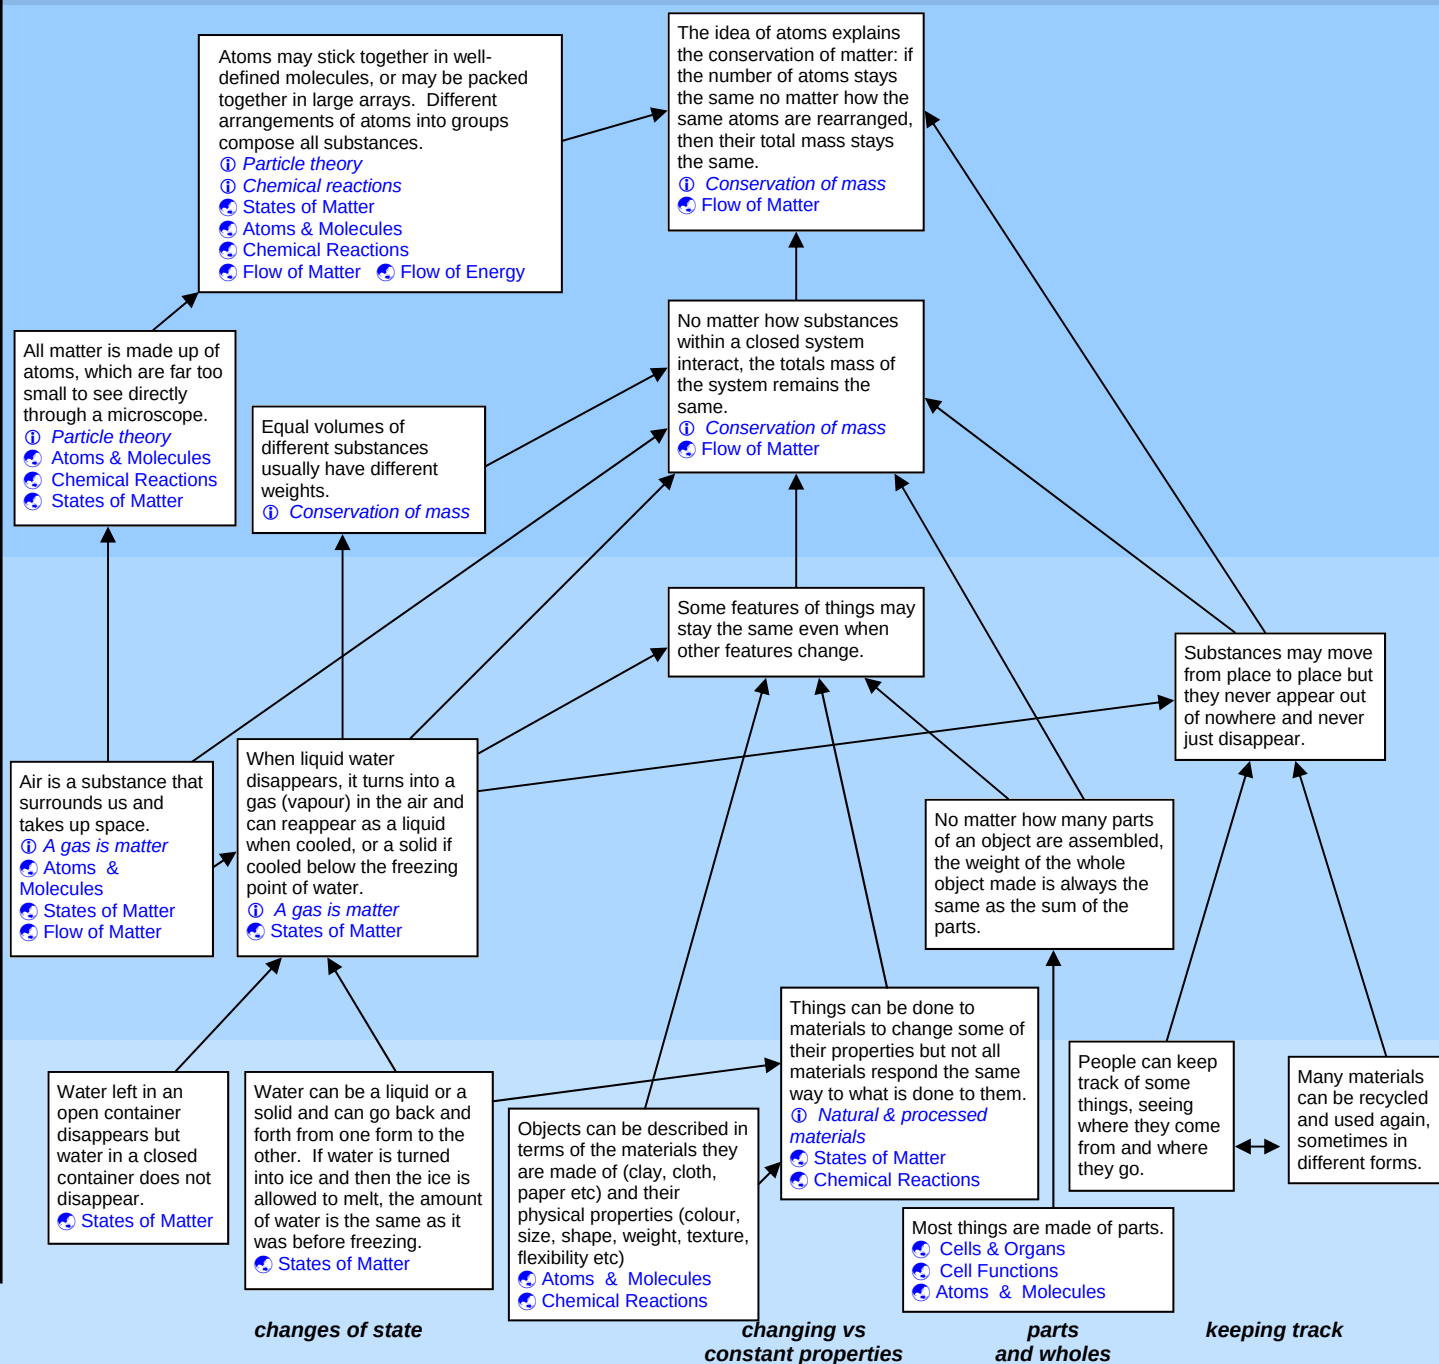

Cells and Organs

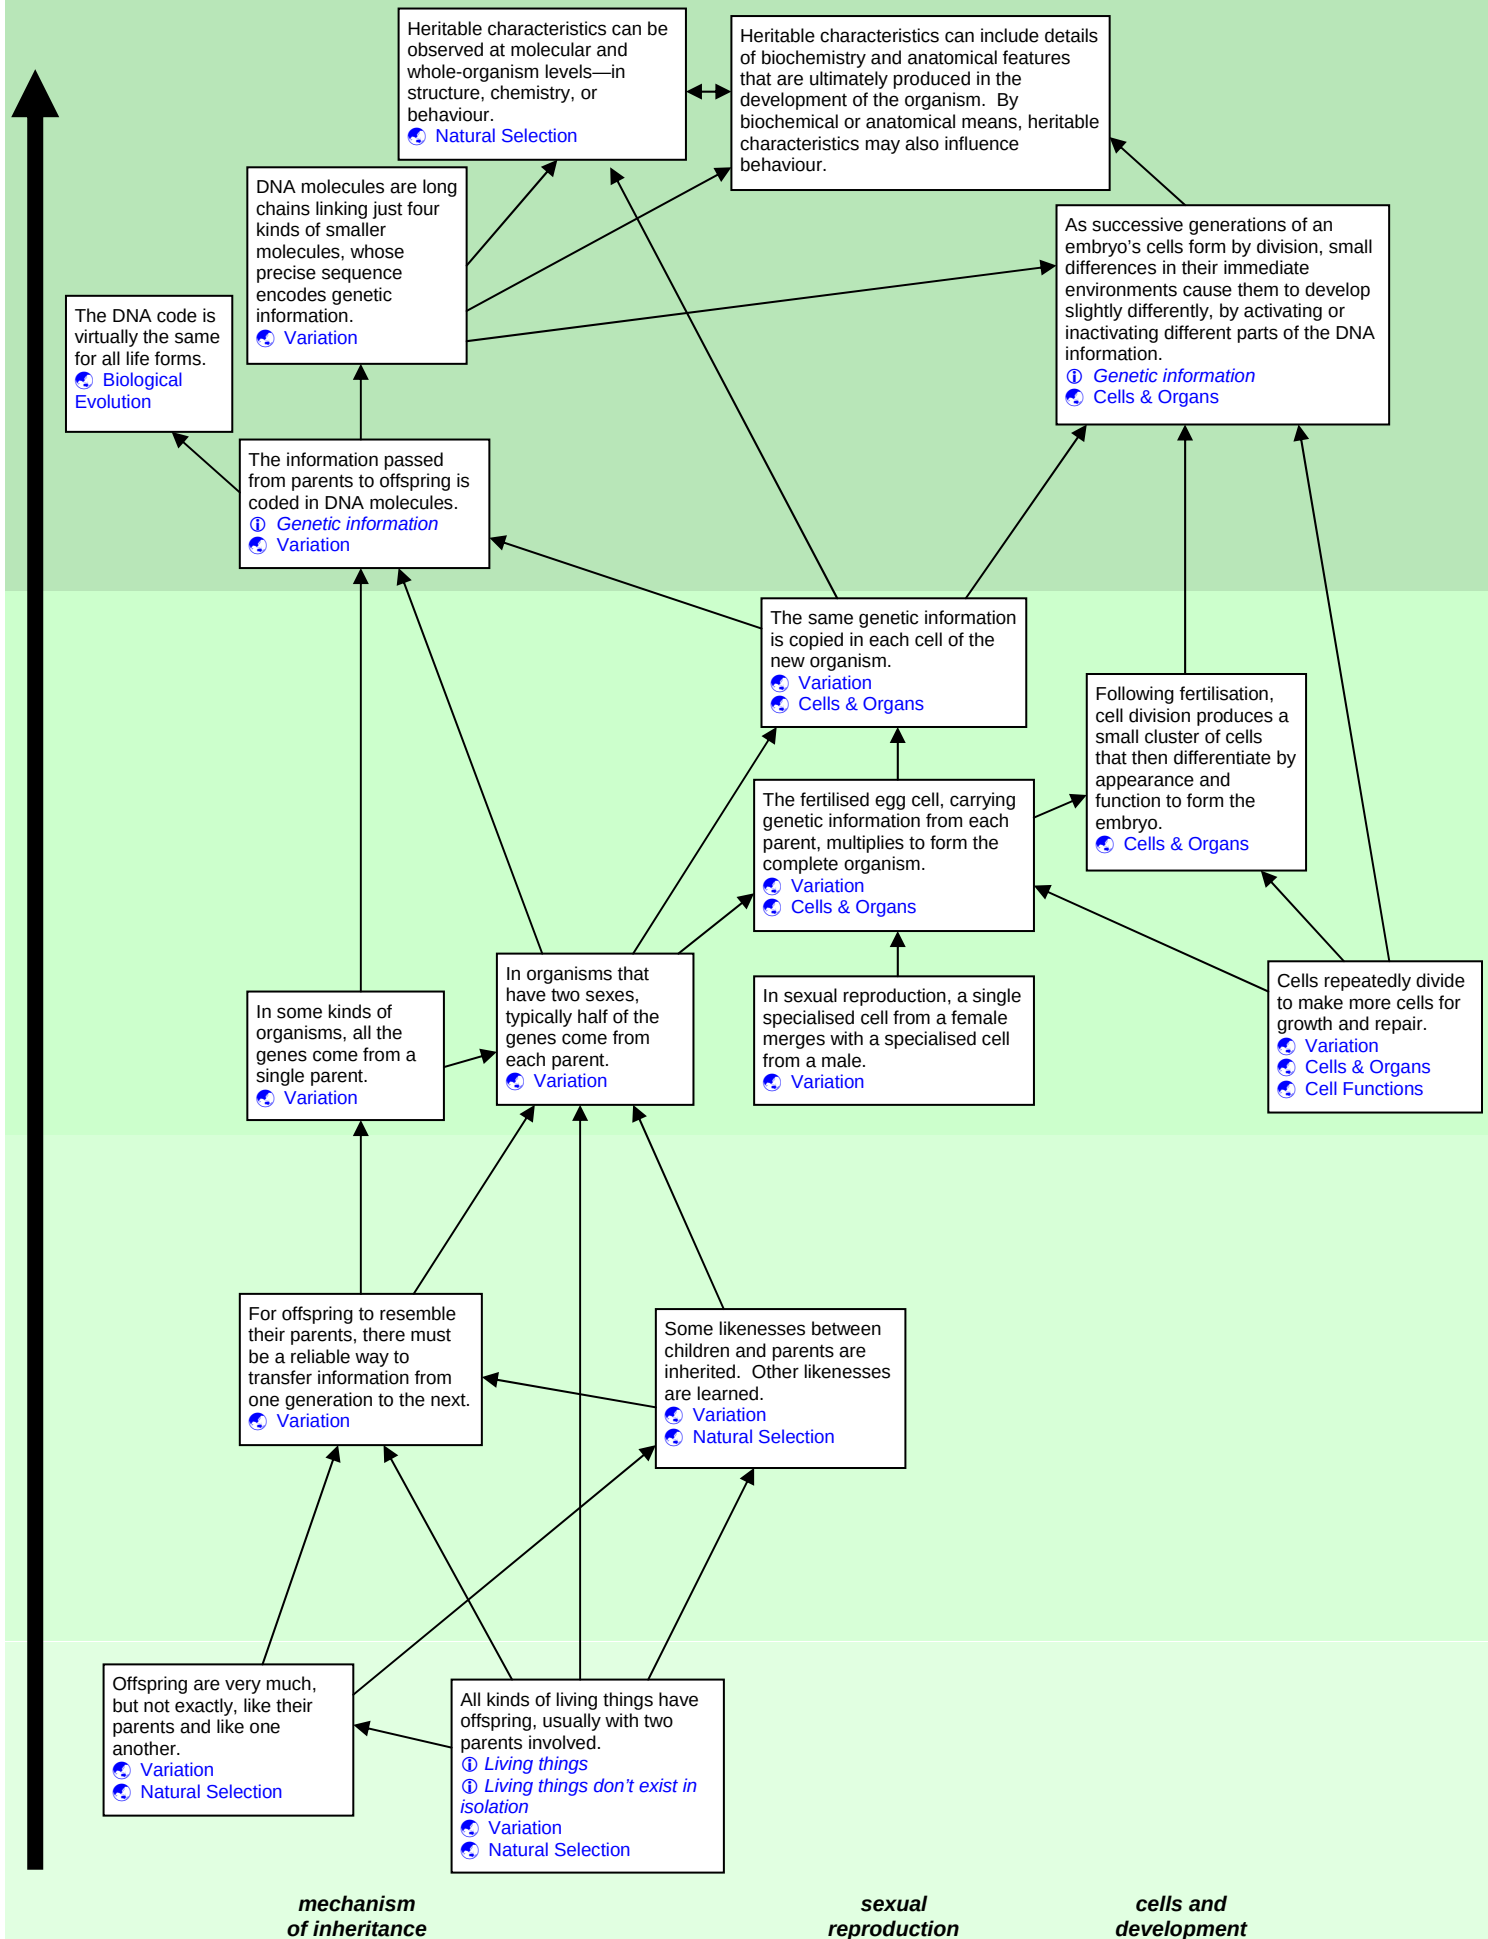

Chemical Reactions

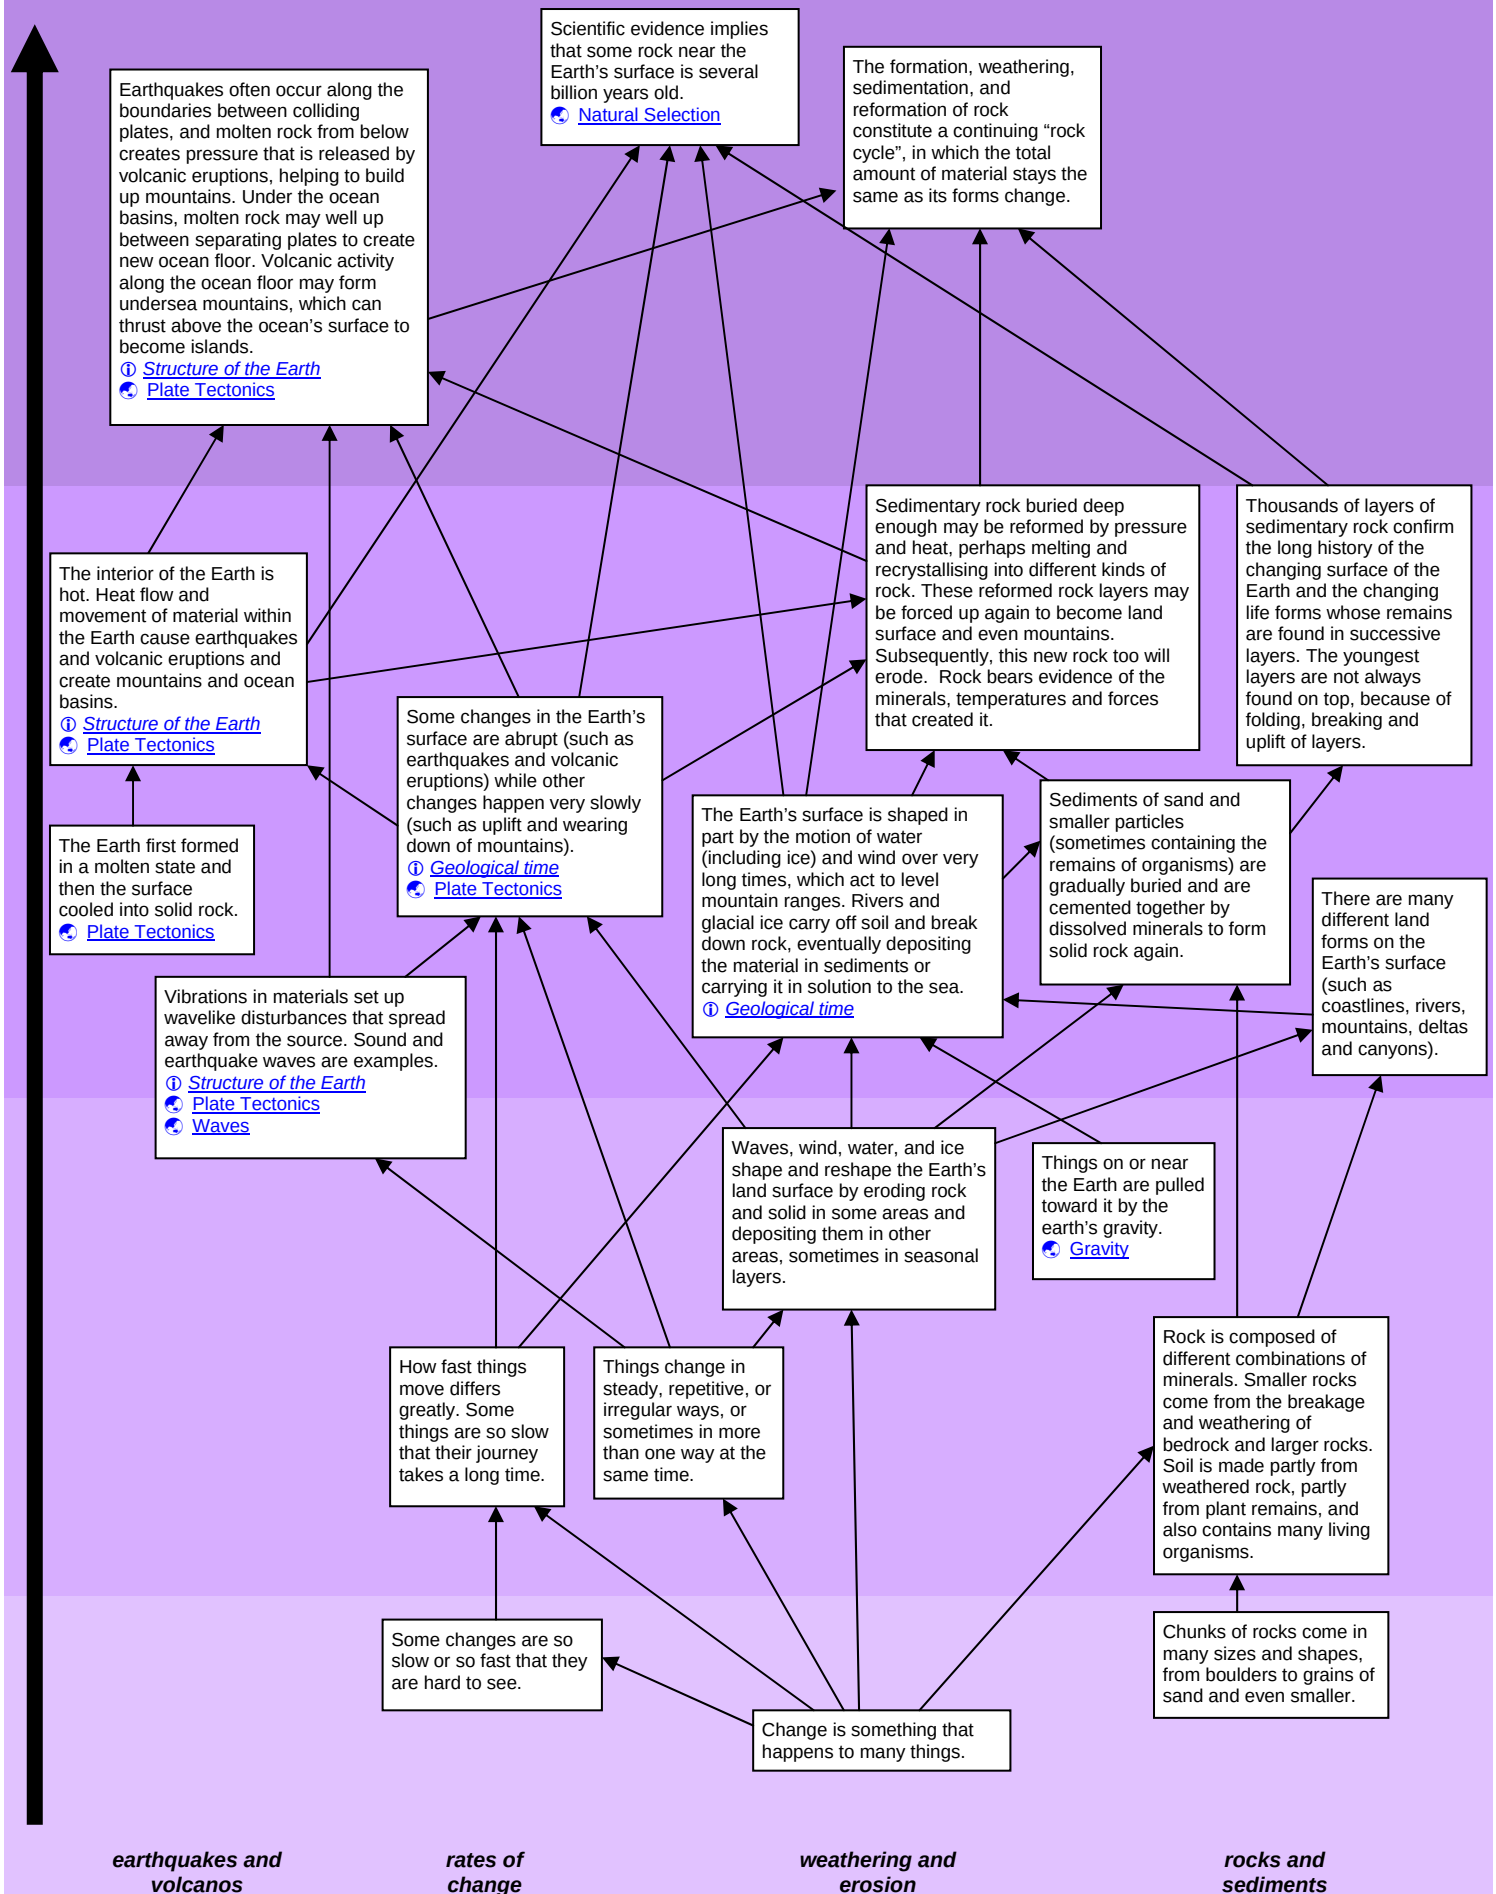

Conservation of Matter

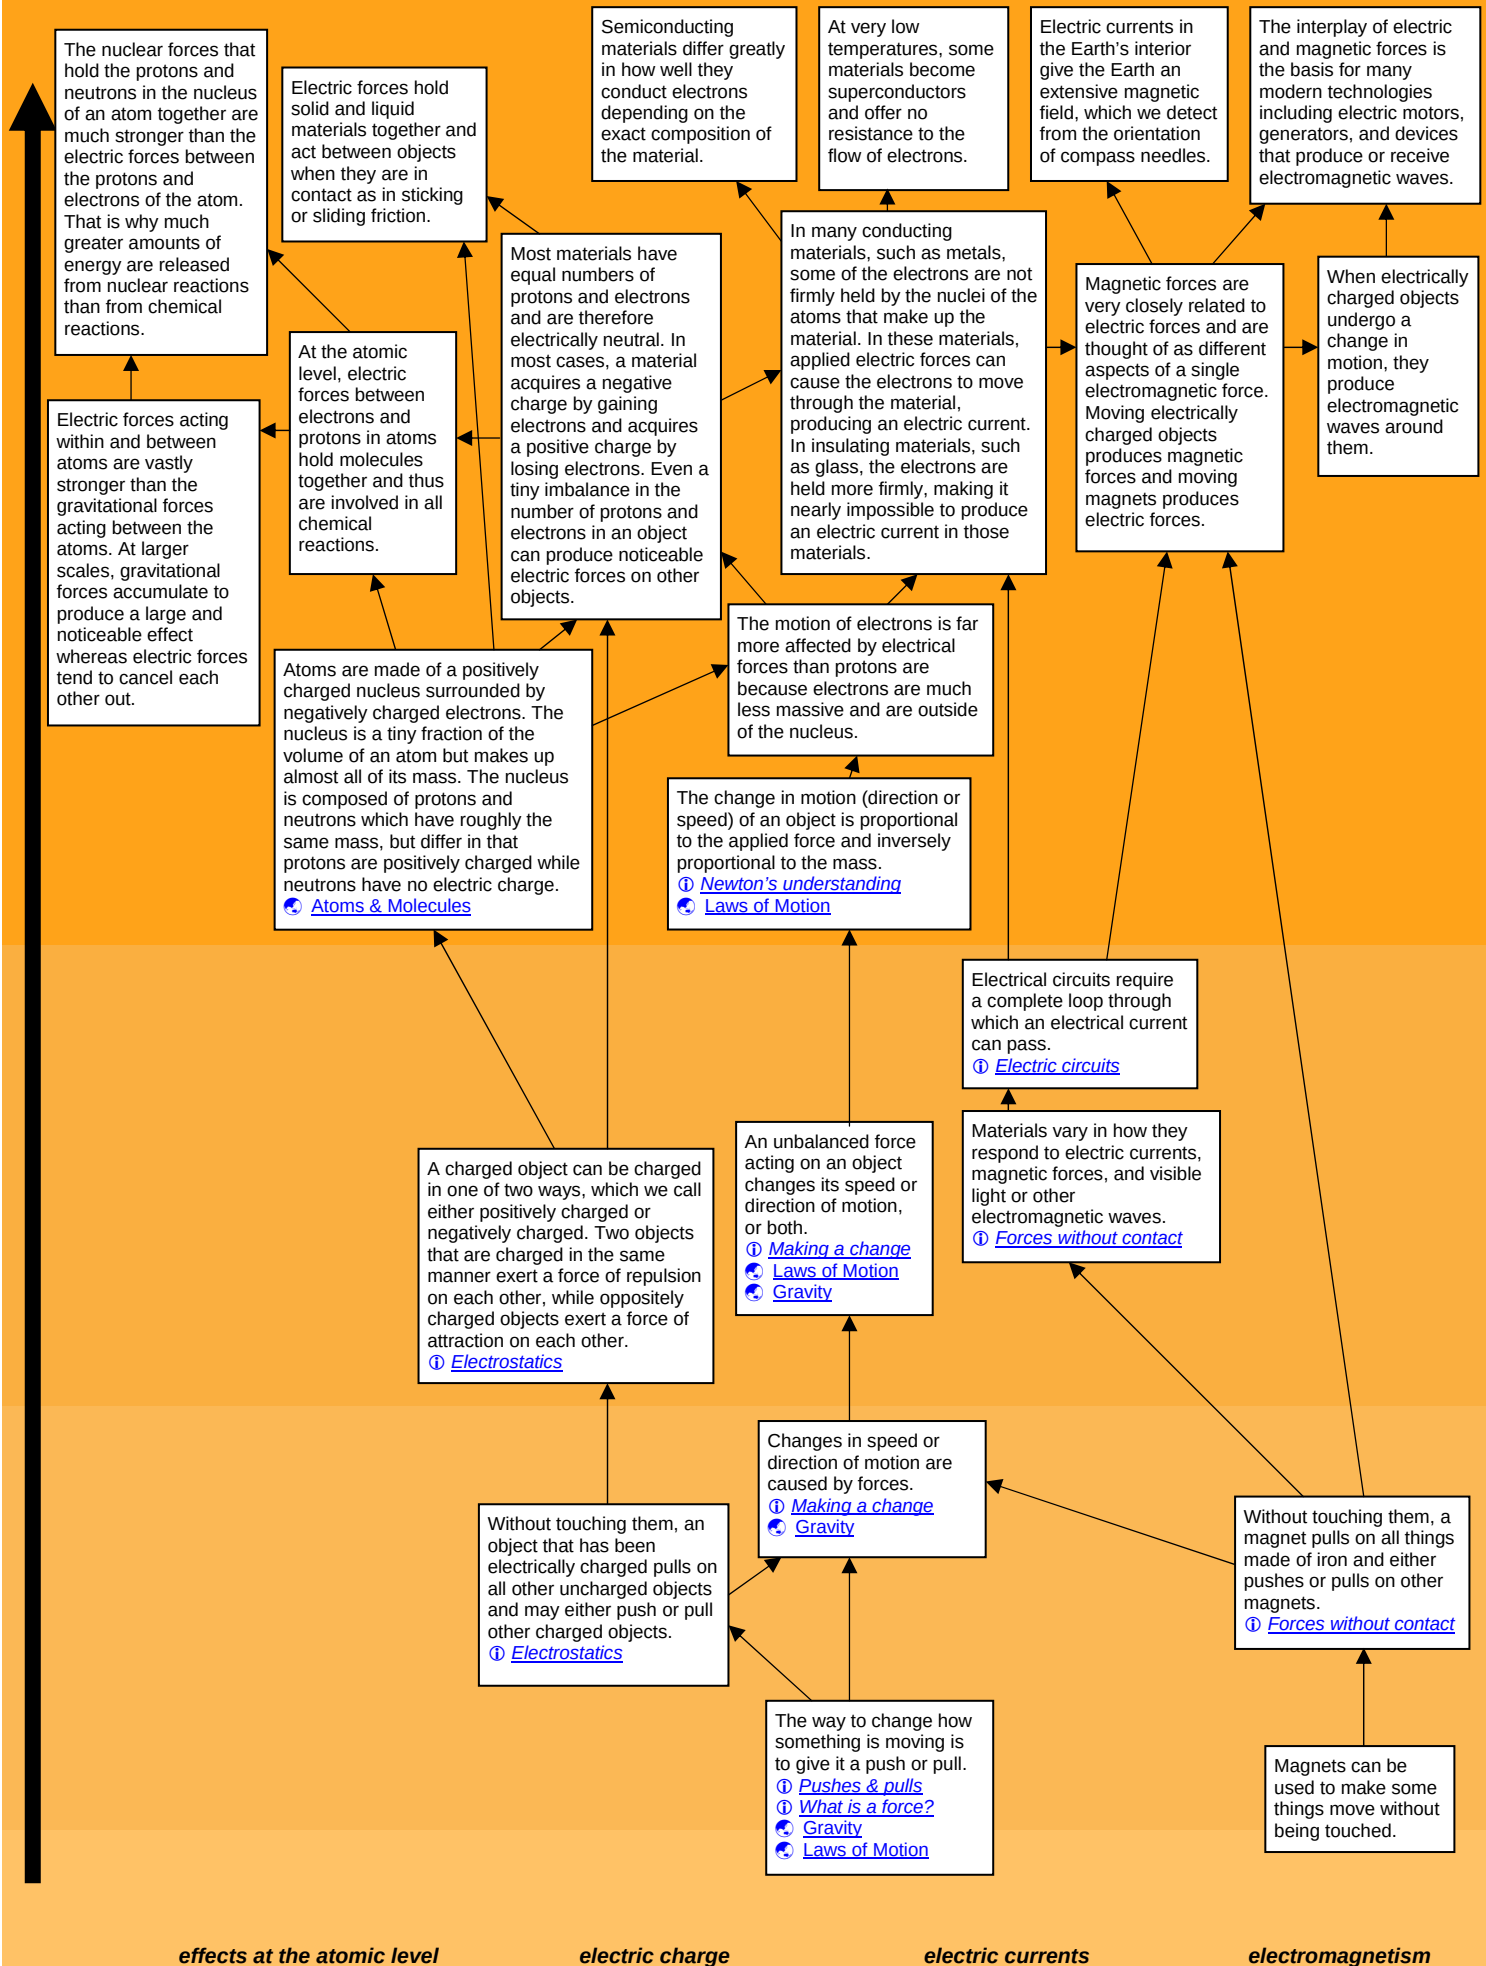

DNA and Inherited Characteristics

Changes in the Earth's Surface

Electricity and Magnetism

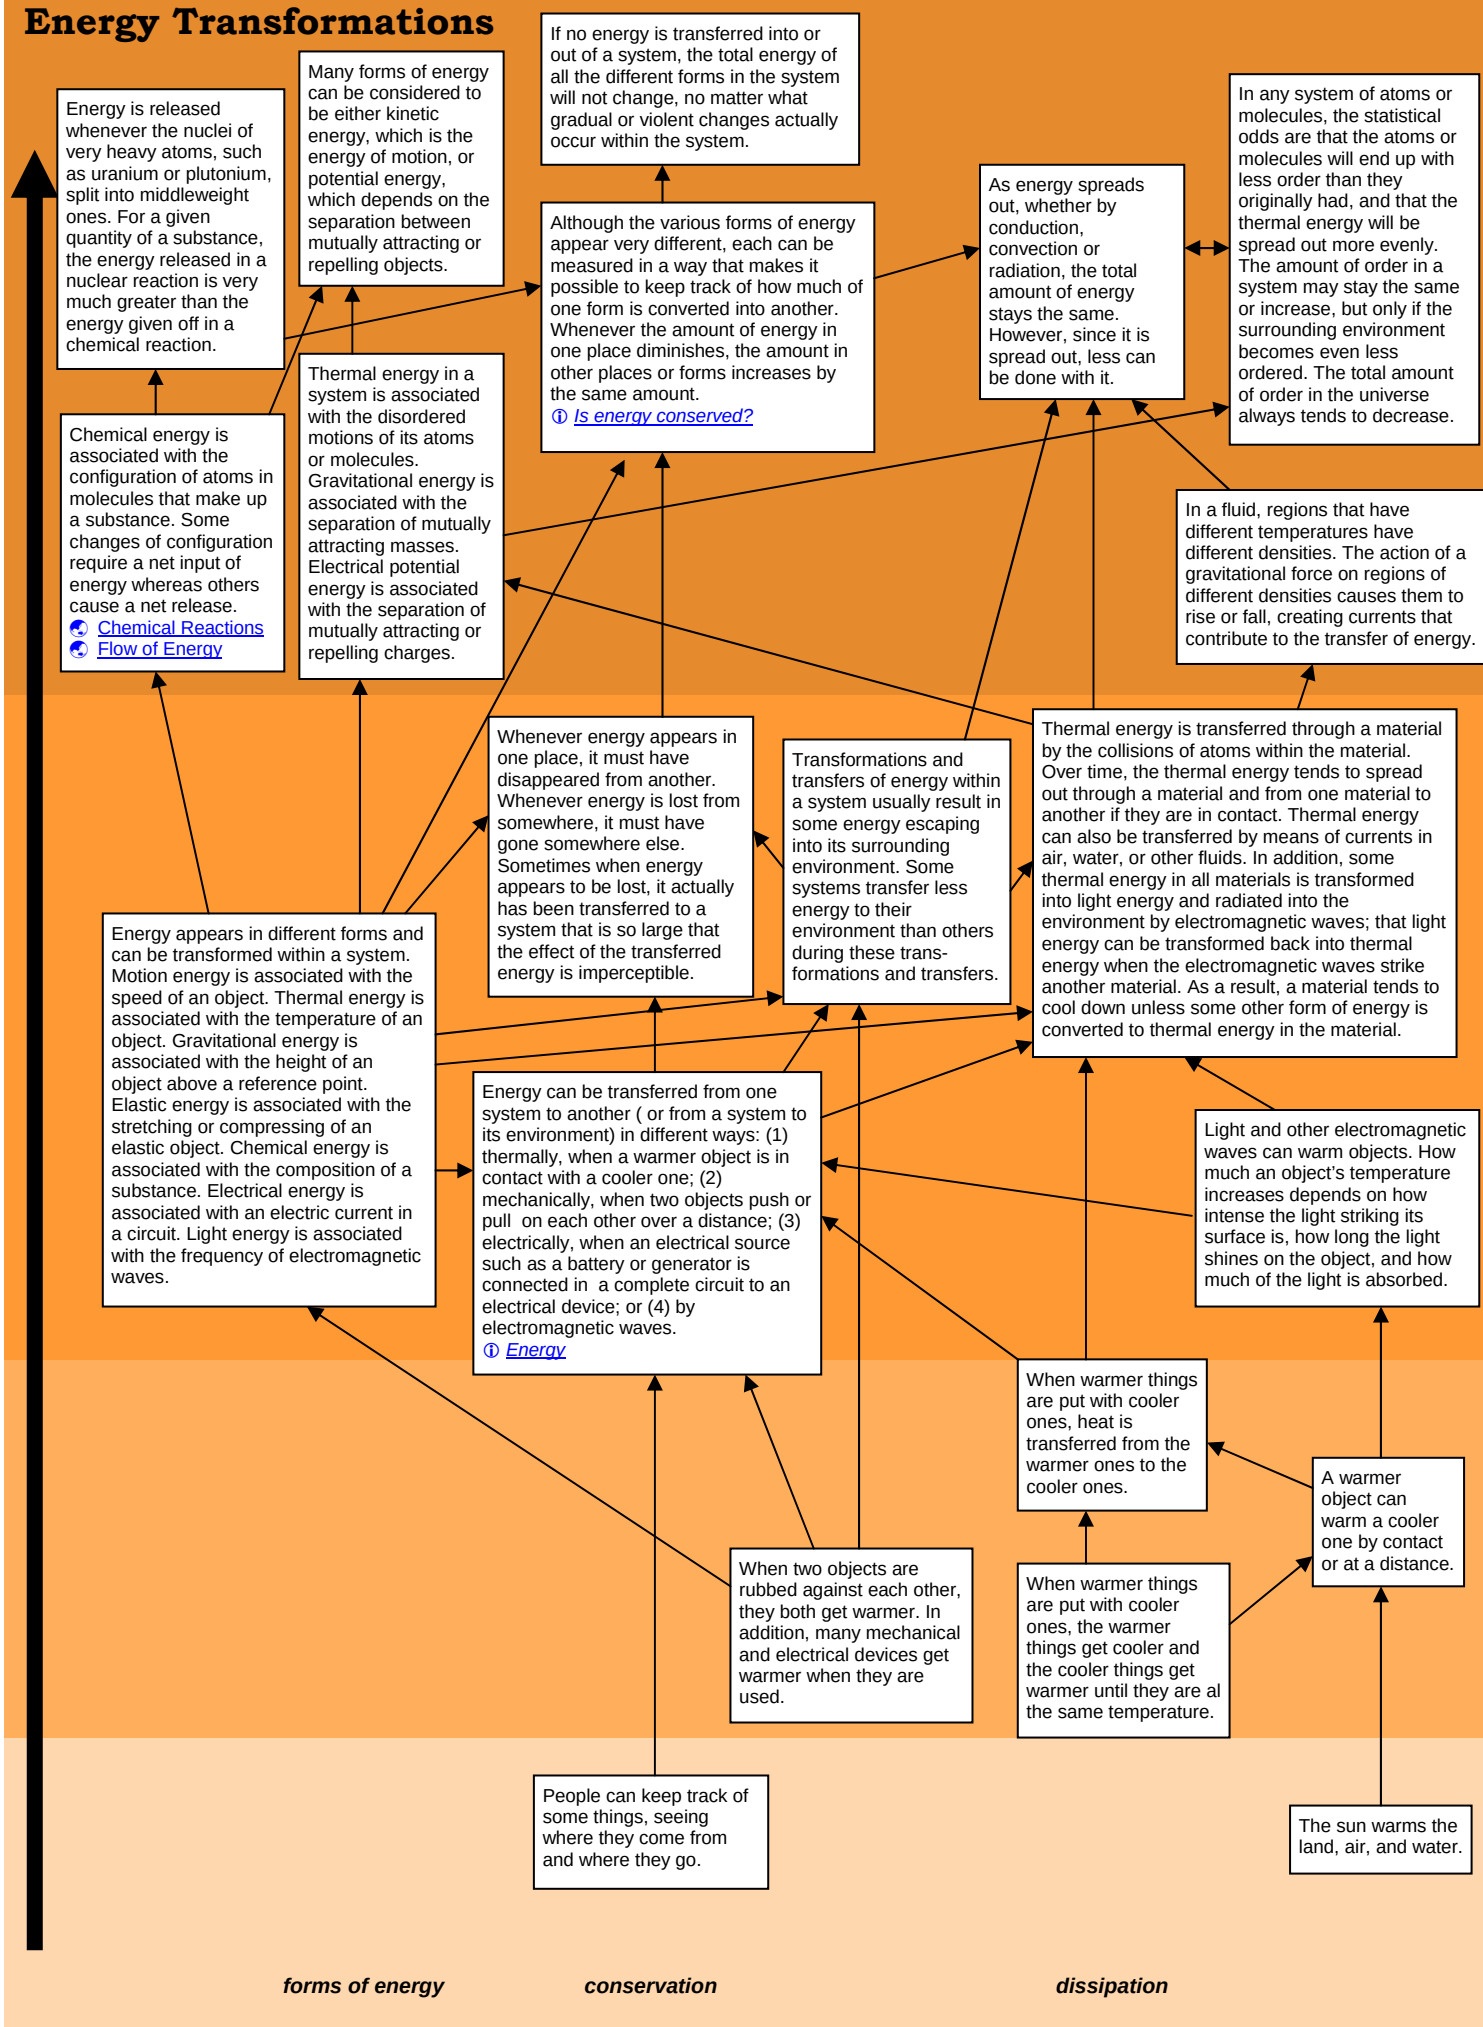

effects at the atomic level

electric charge

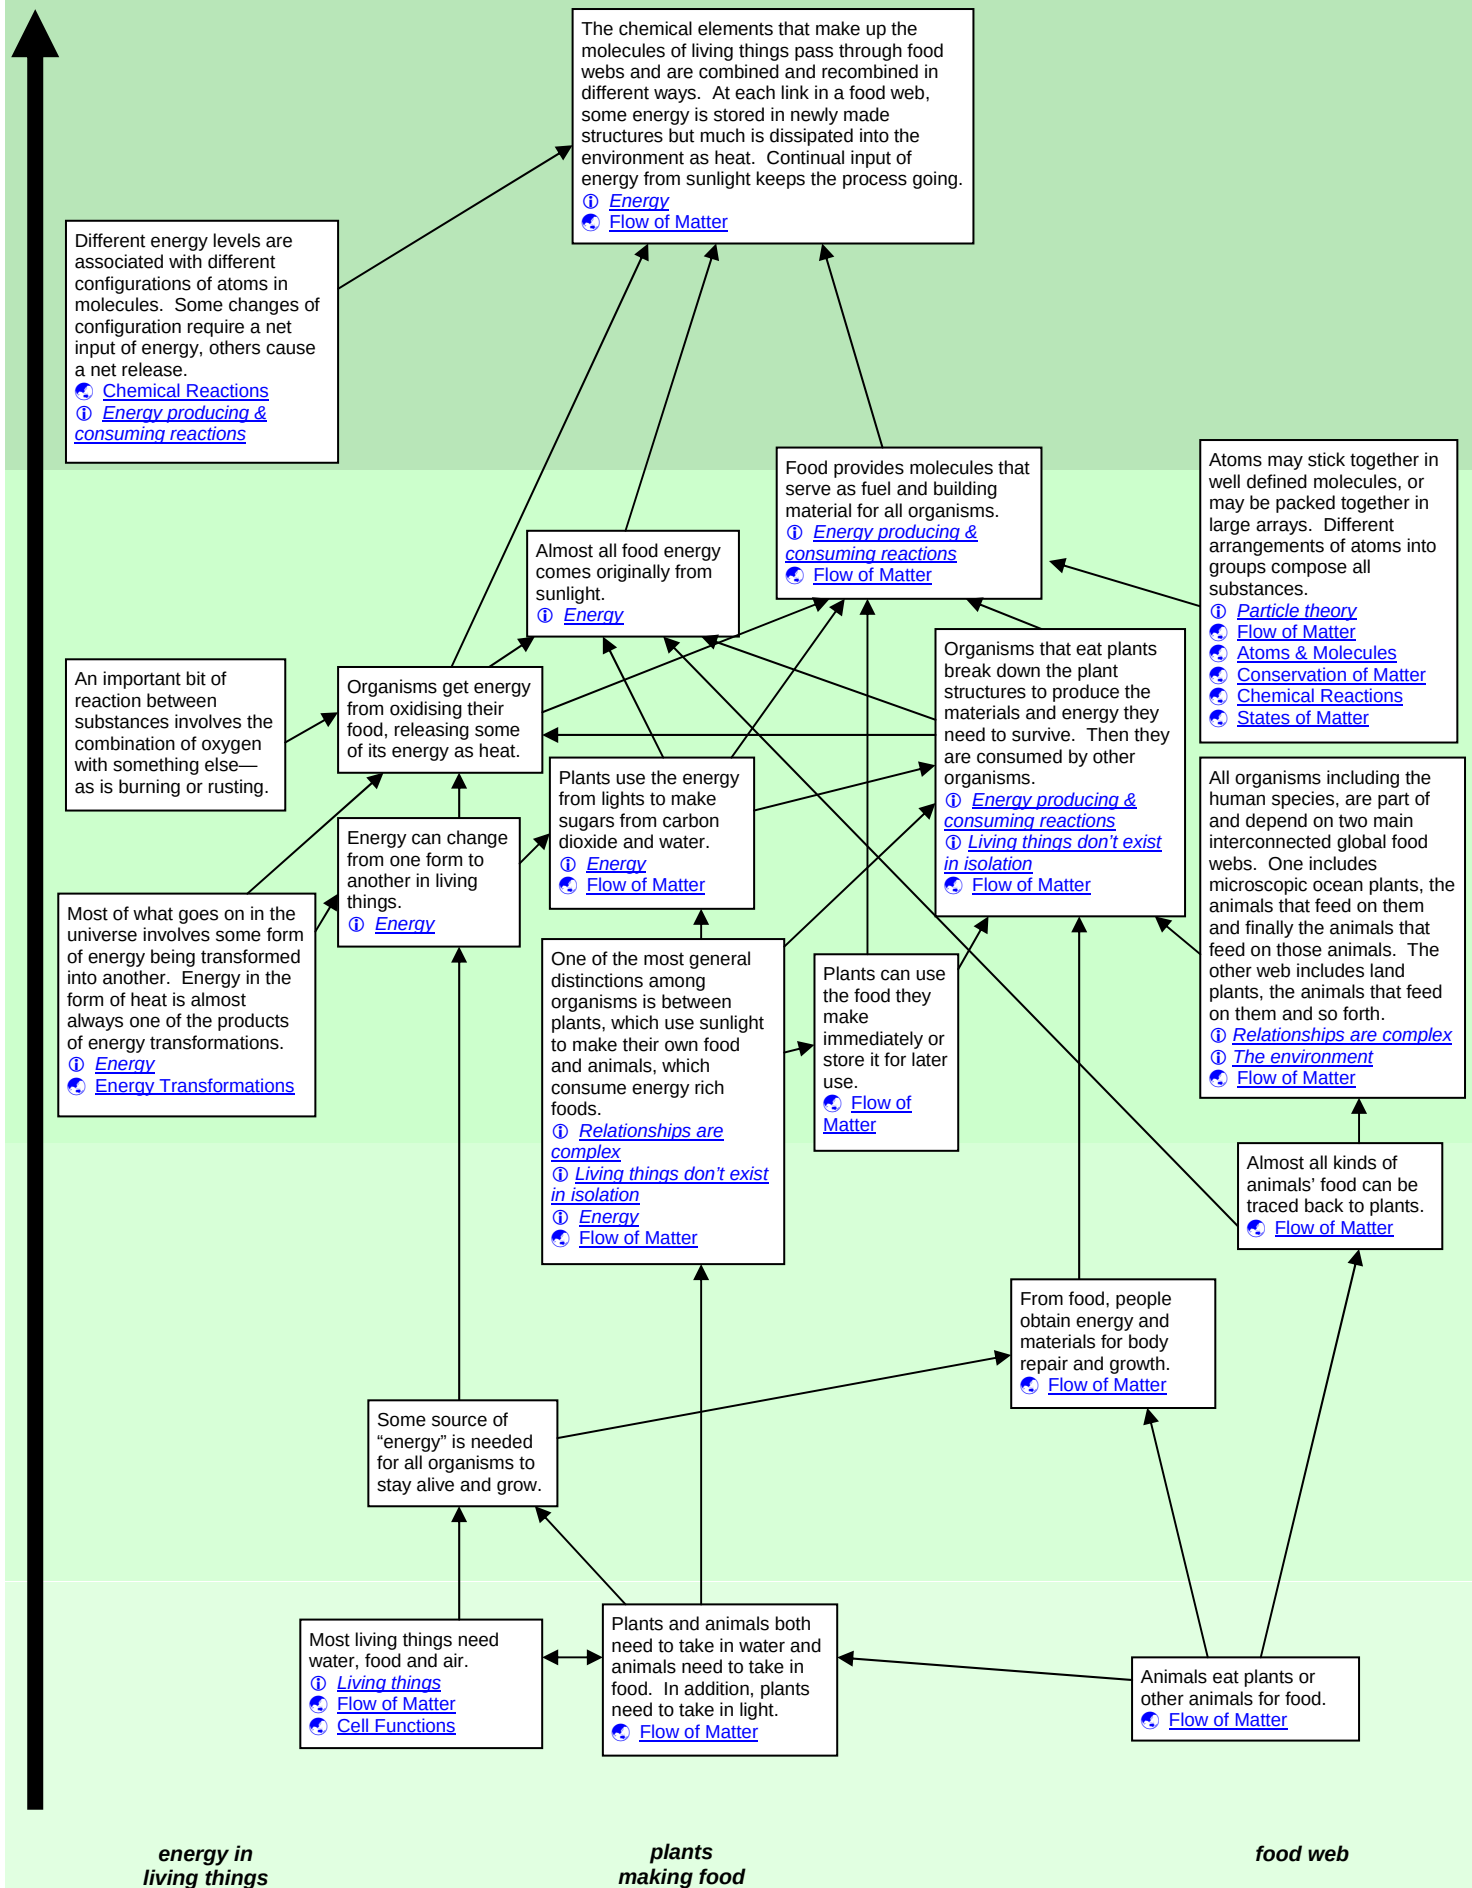

electric currents

electromagnetism

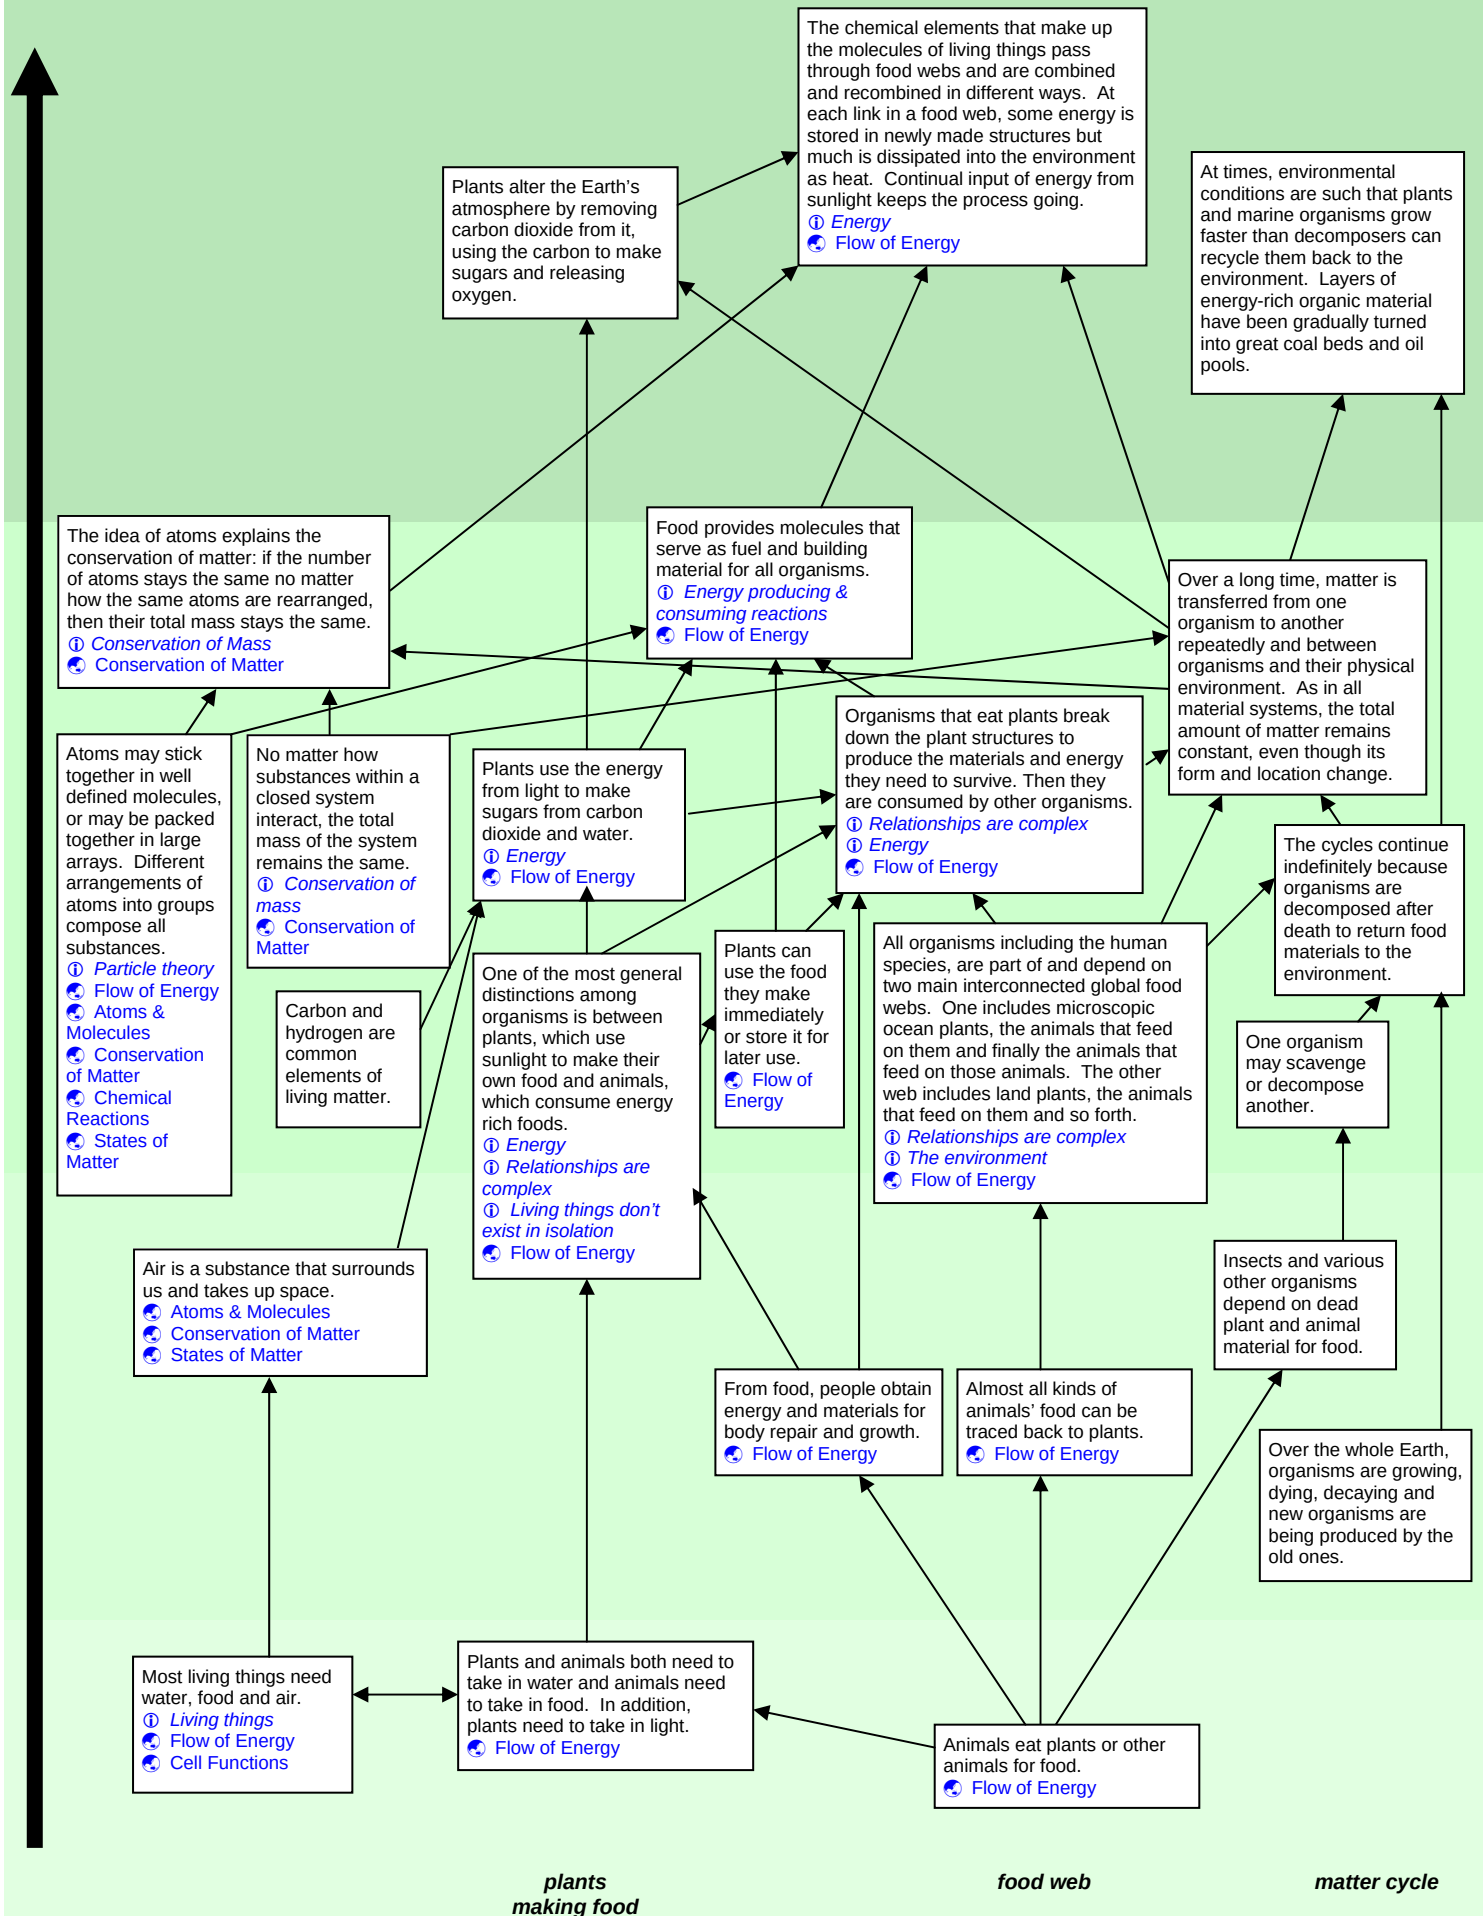

Energy Transformations

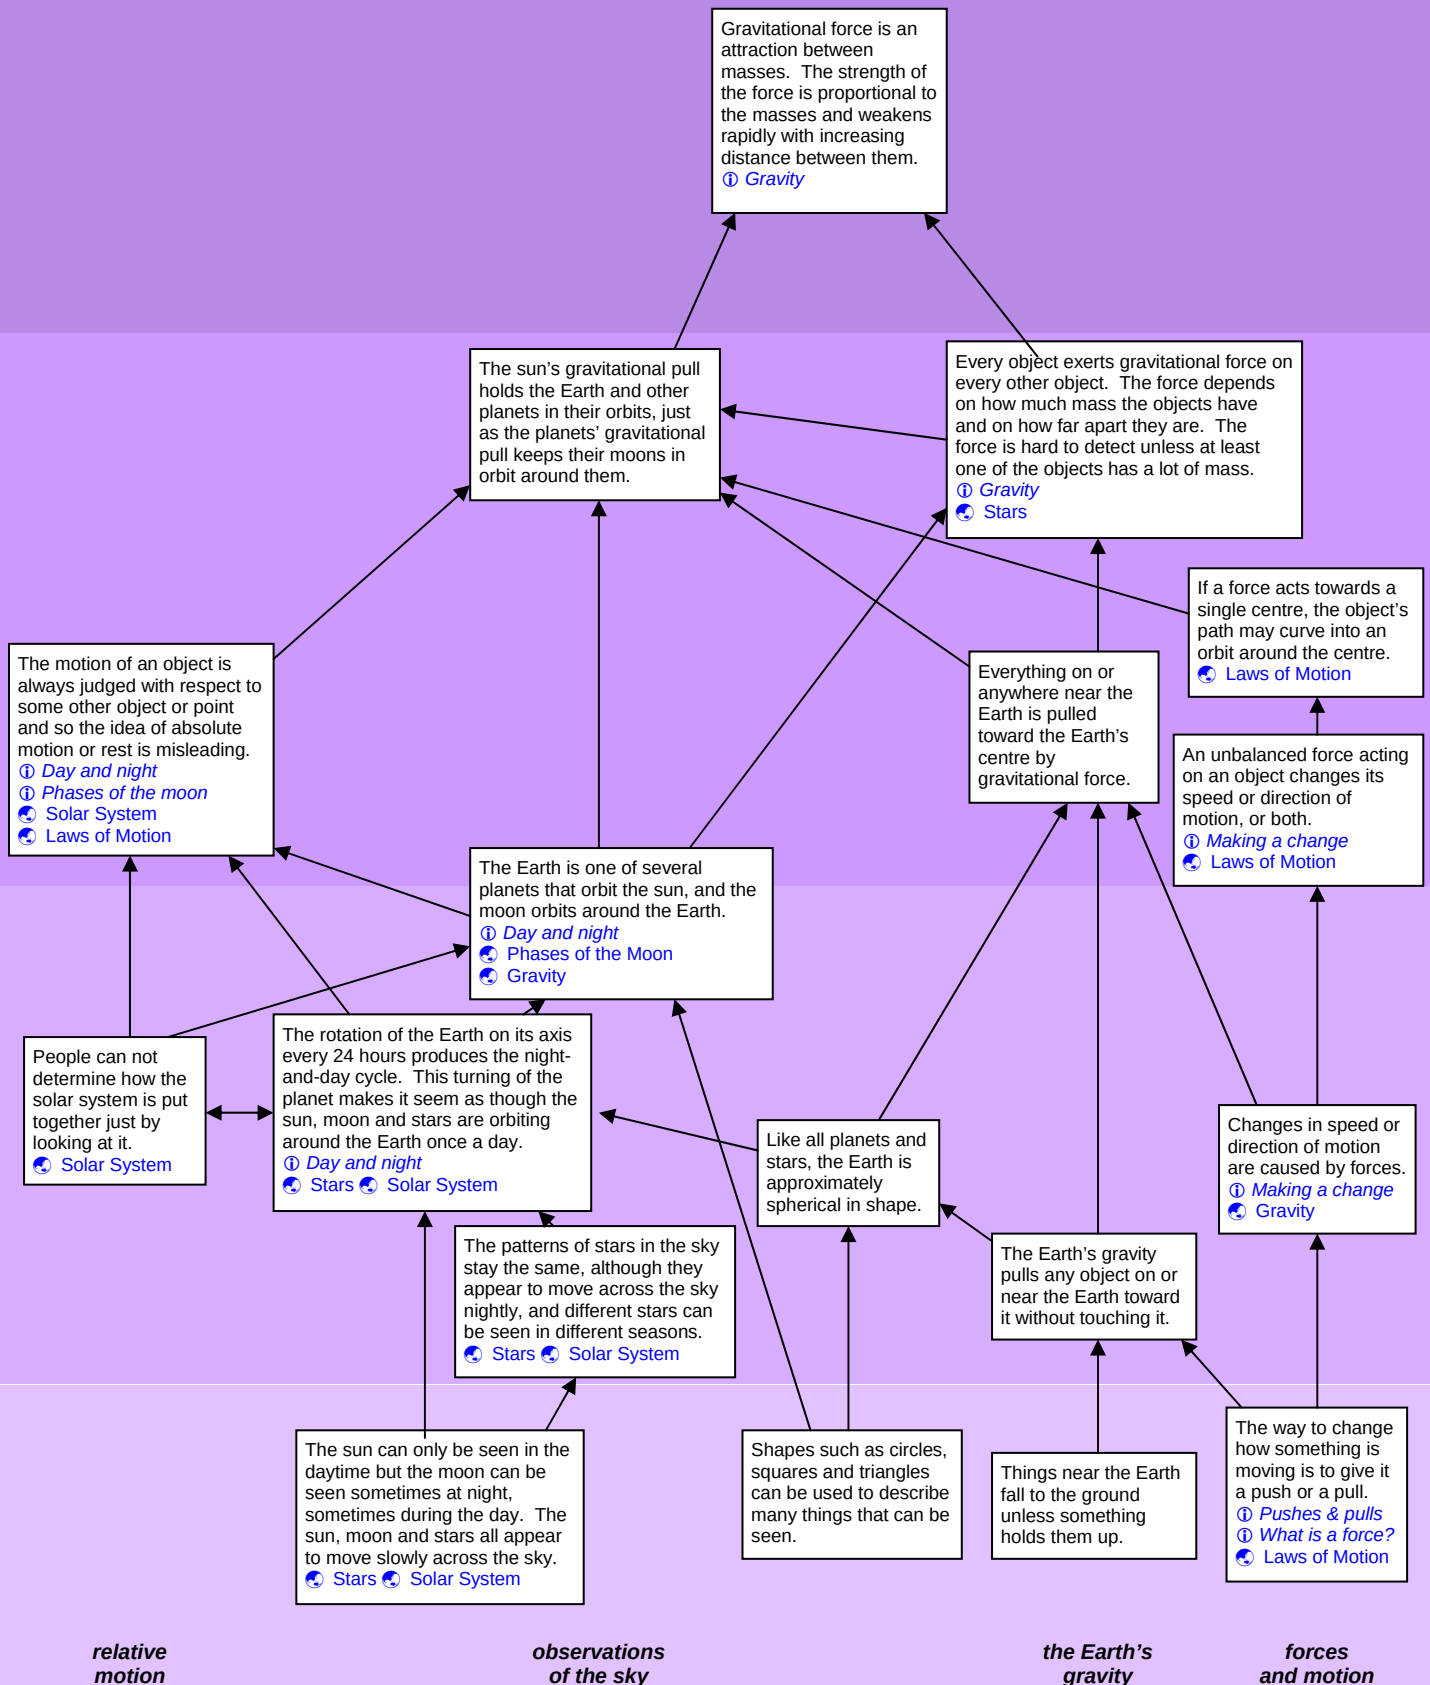

Flow of Energy in Ecosystems

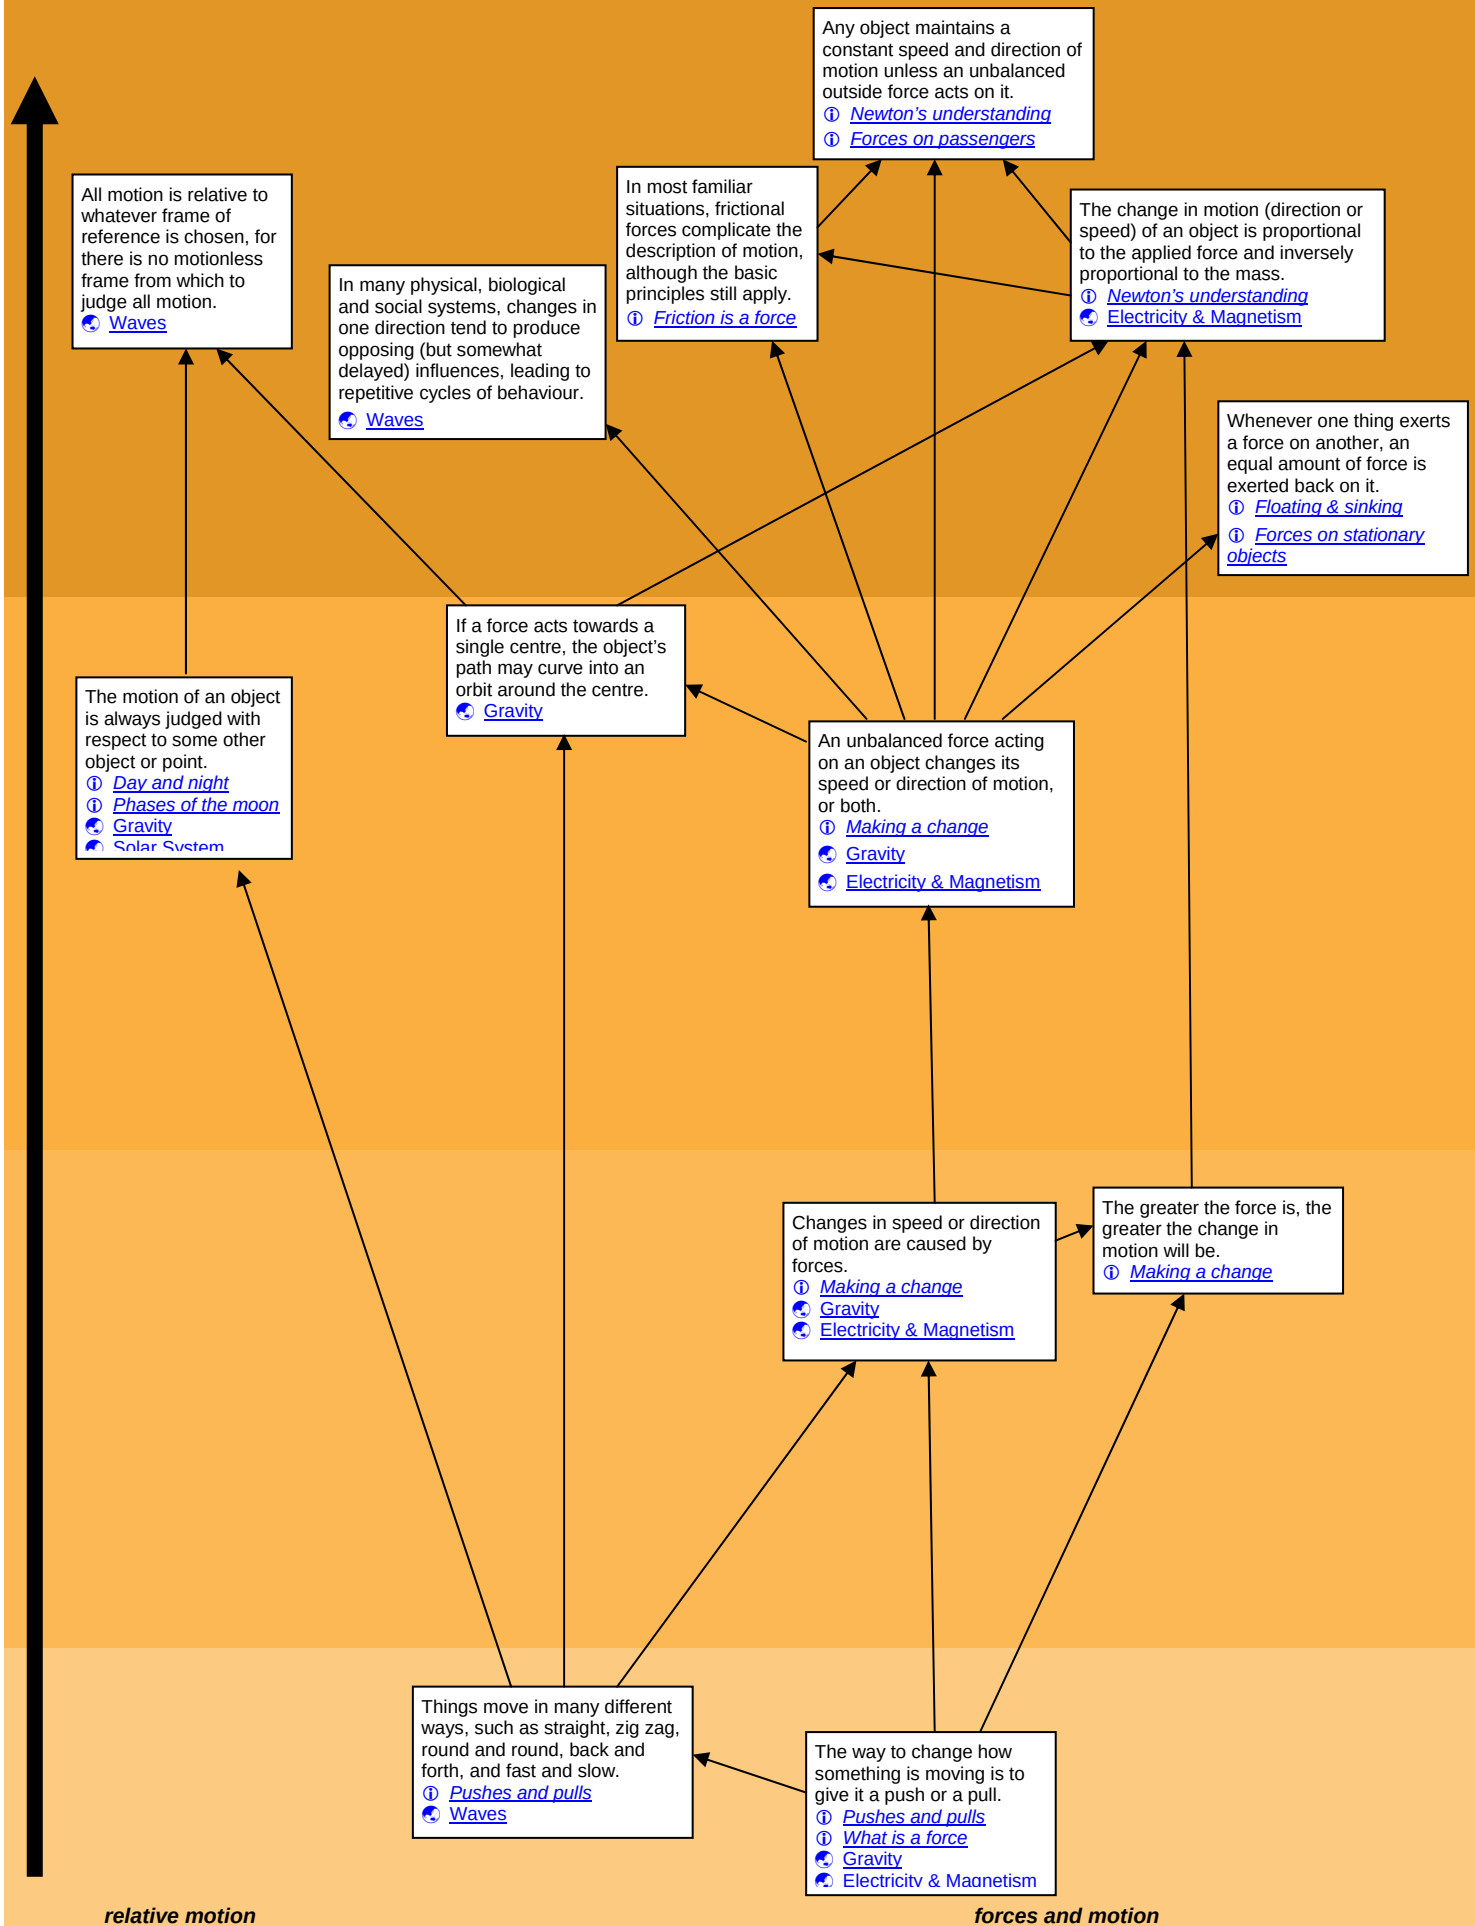

Flow of Matter in Ecosystems

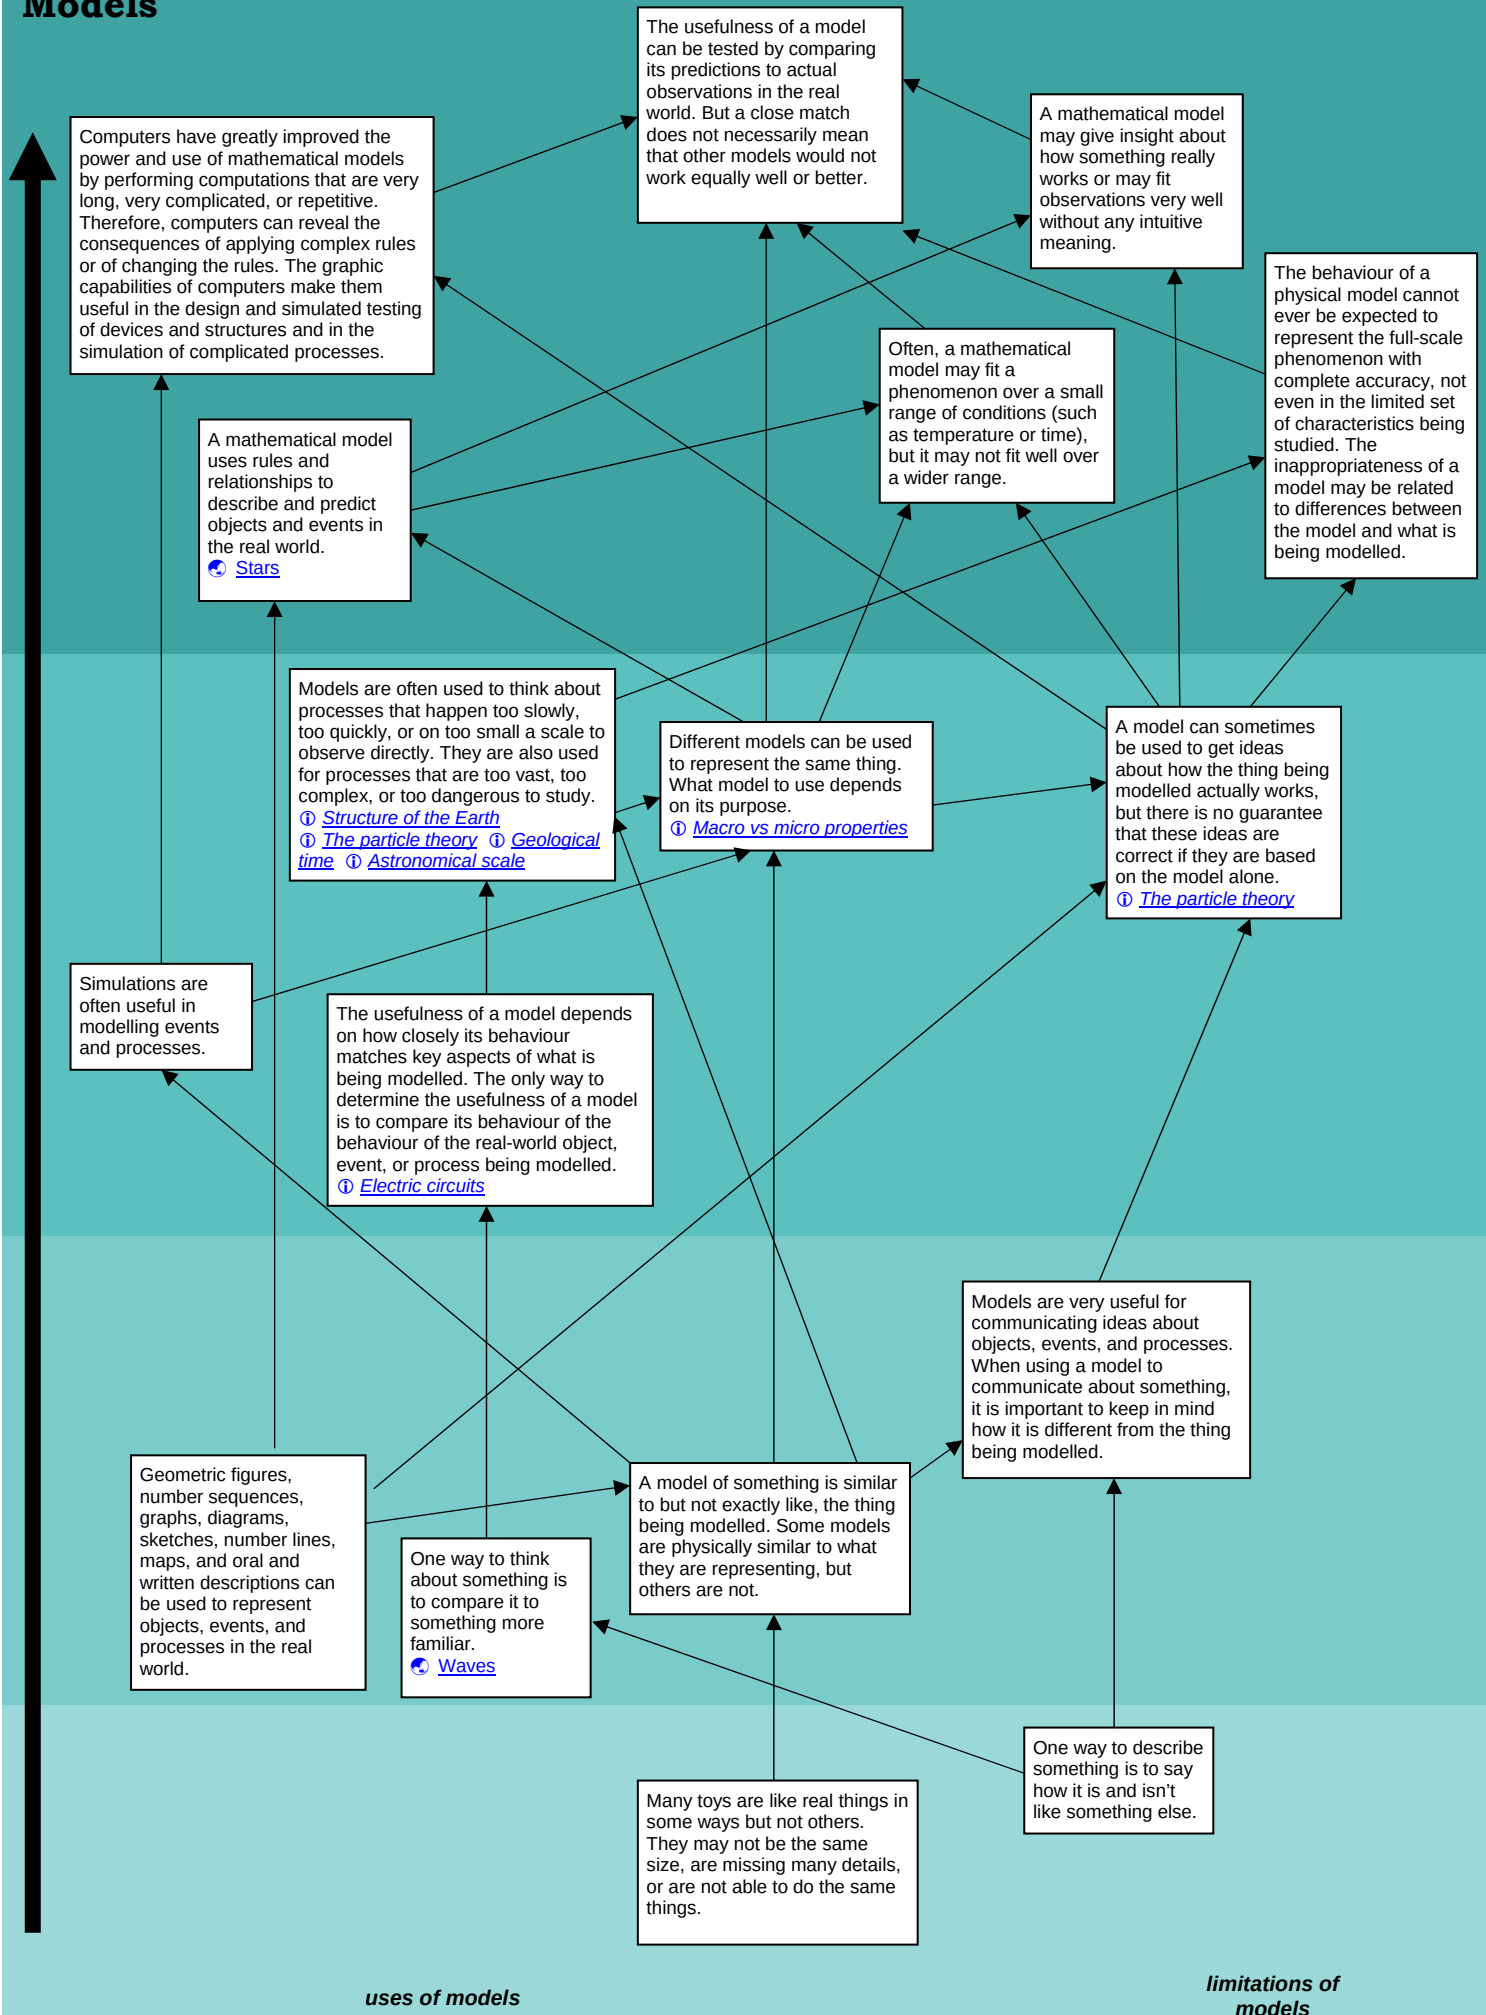

Gravity

Laws of Motion

Models

Stars

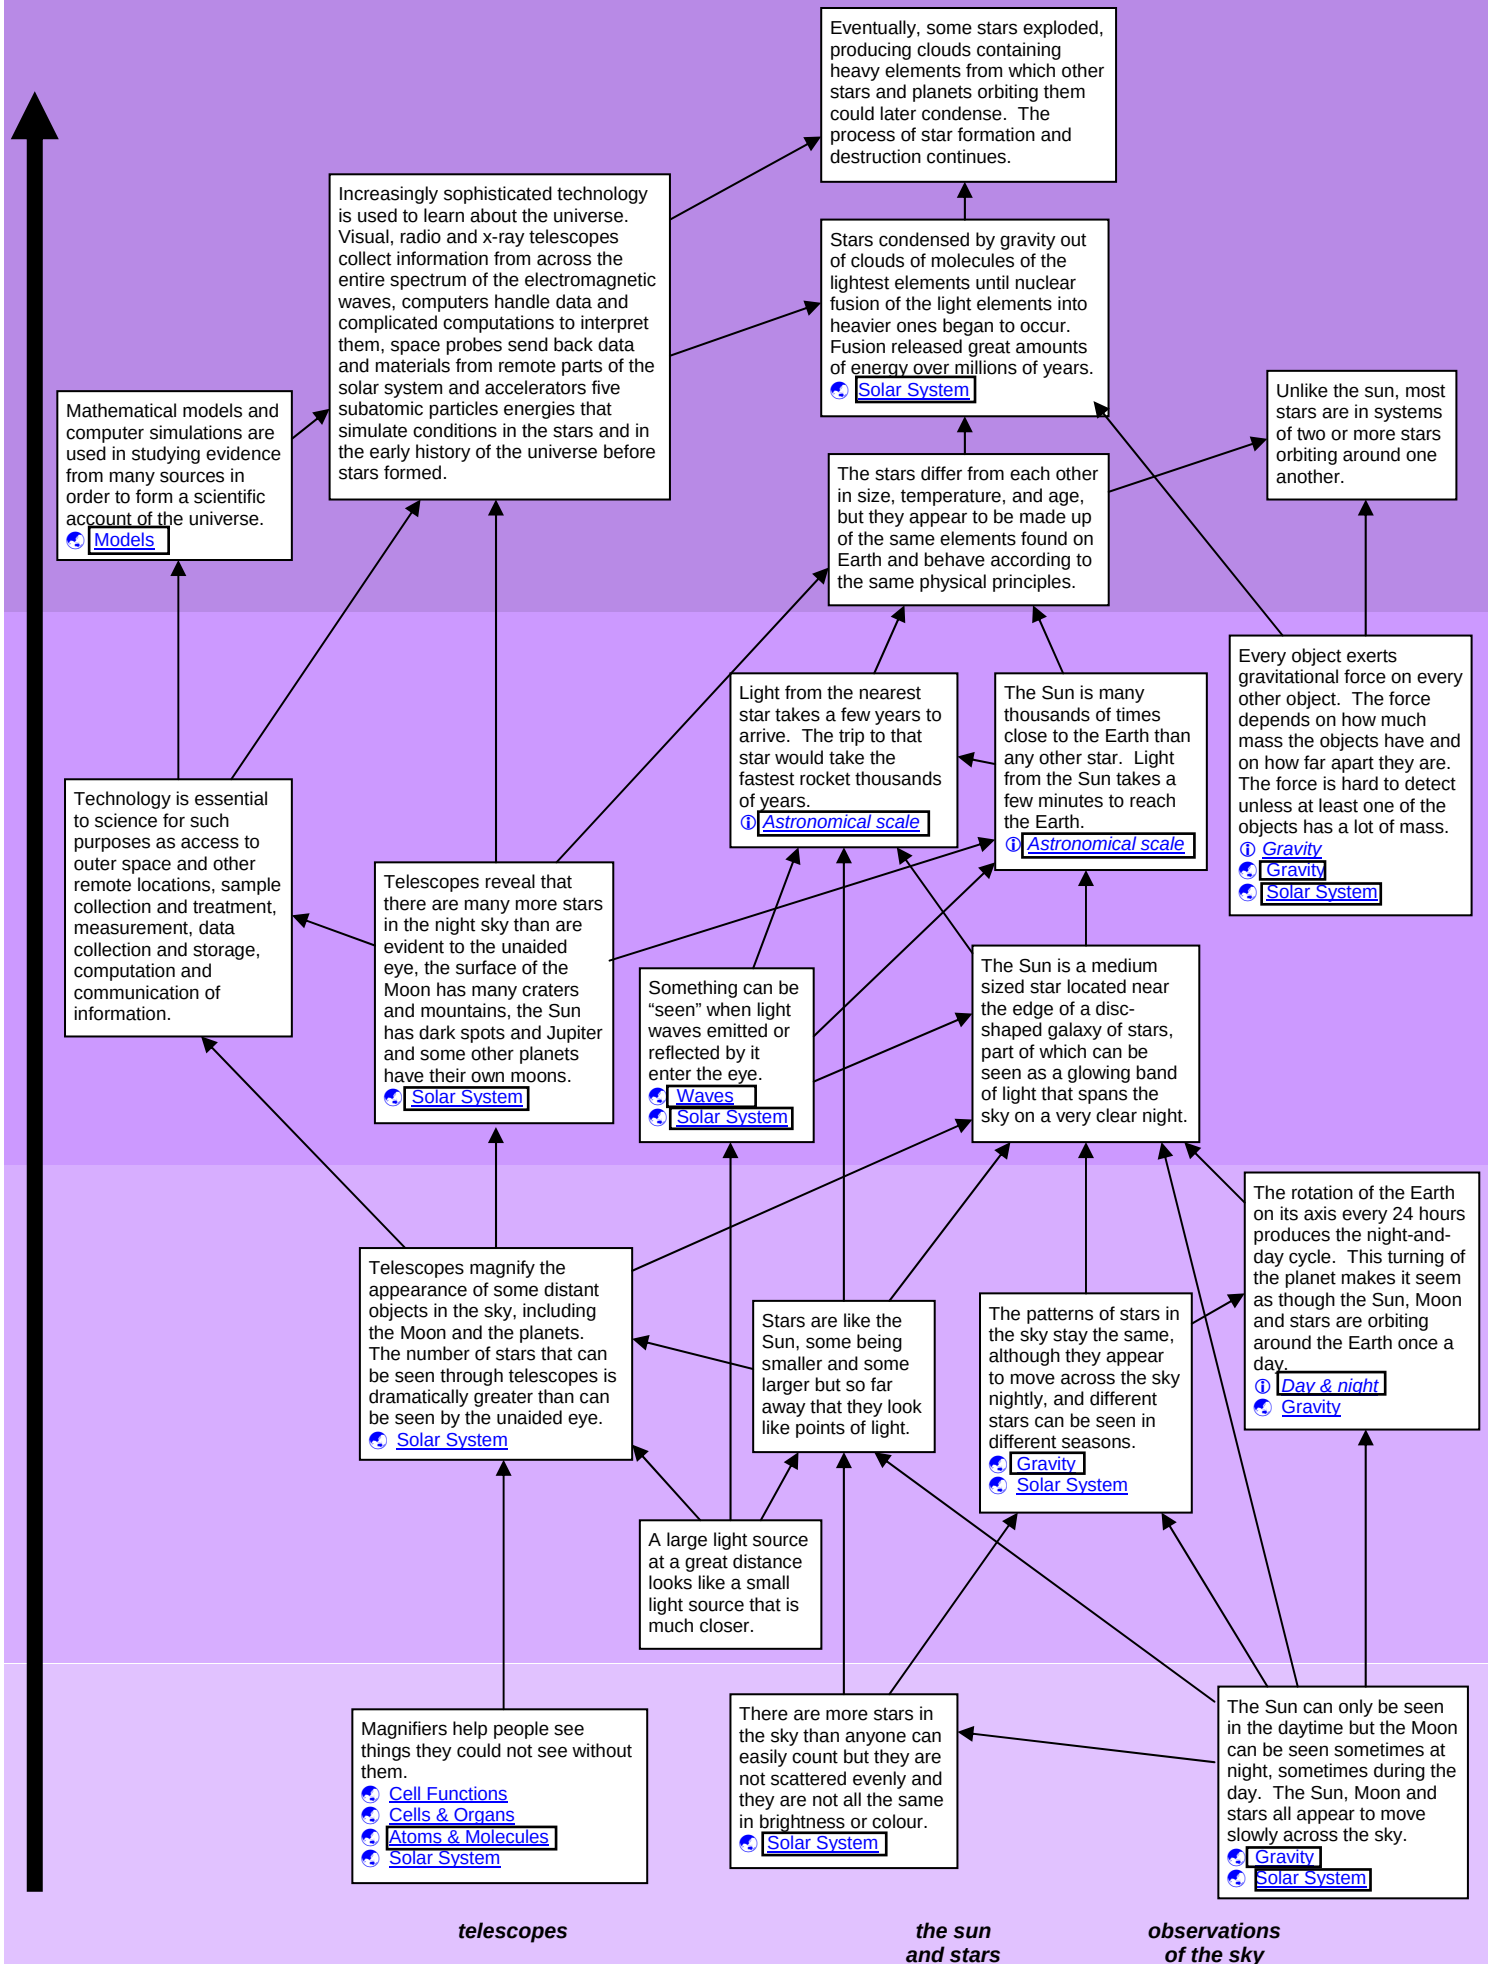

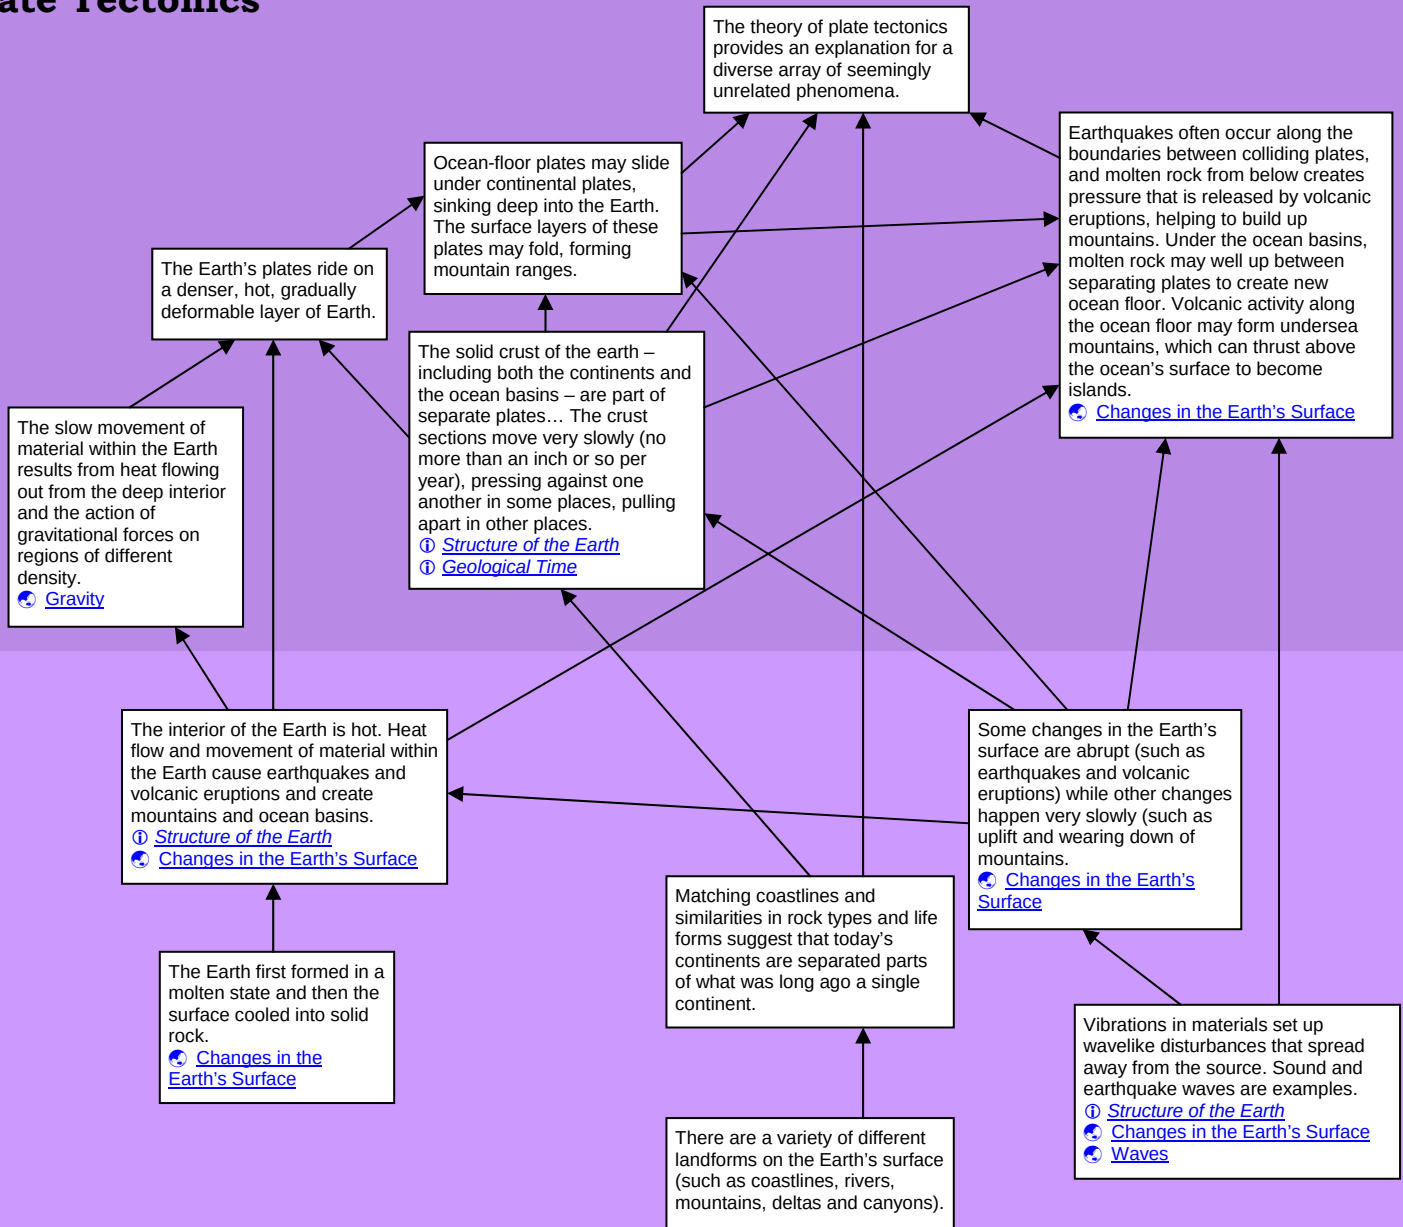

Plate Tectonics

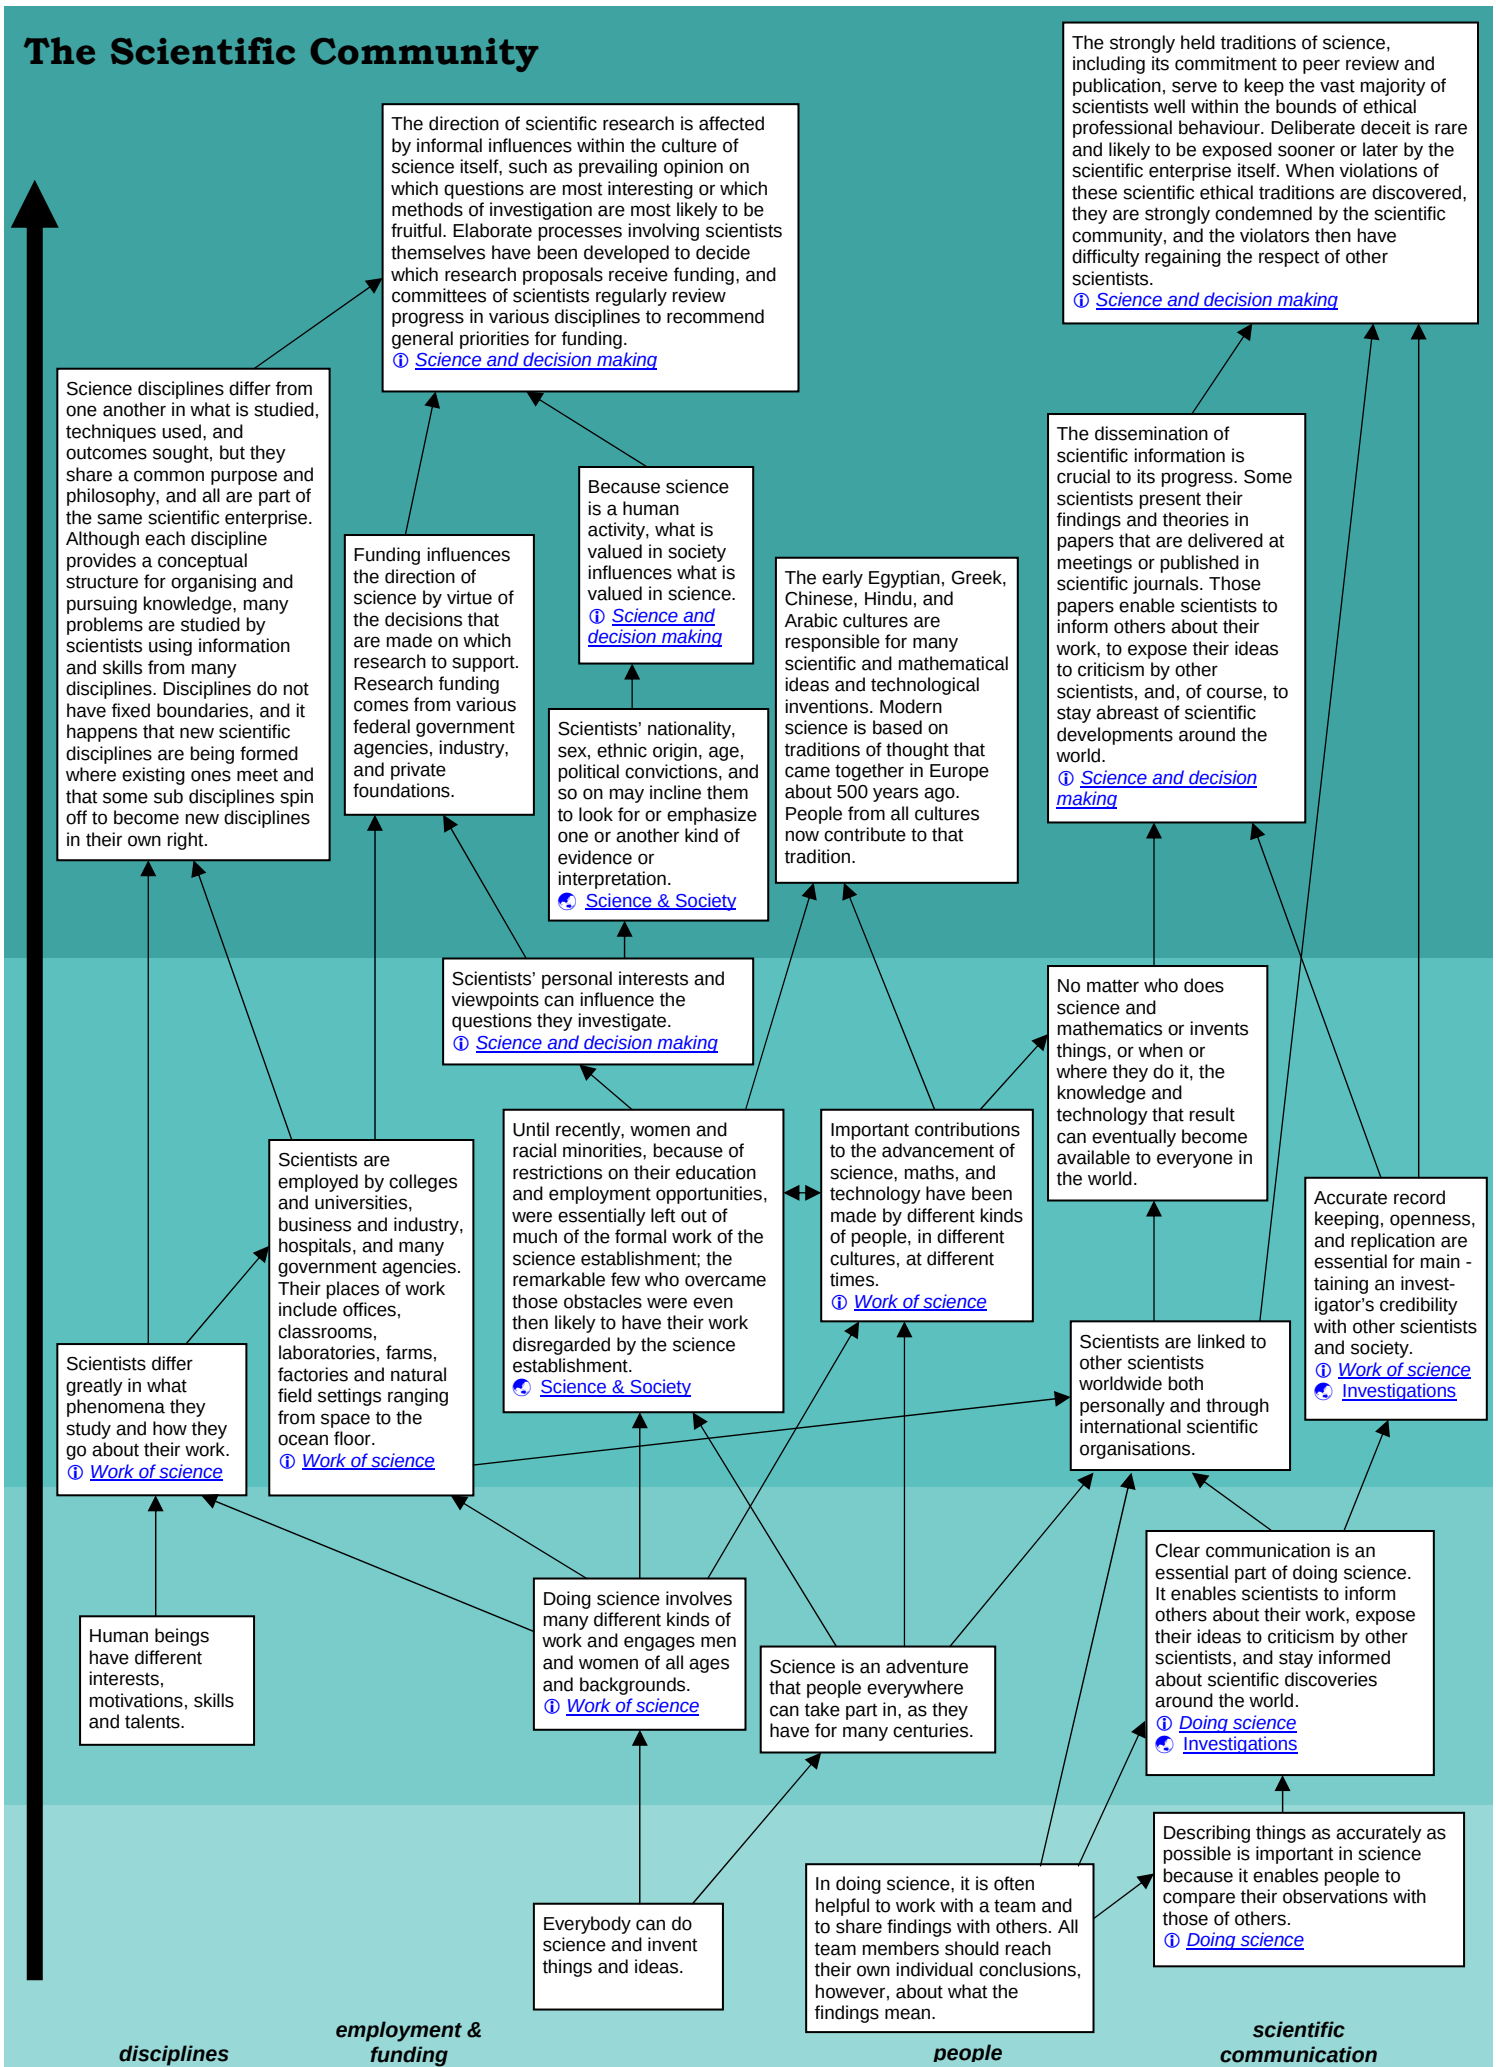

the Earth's interior

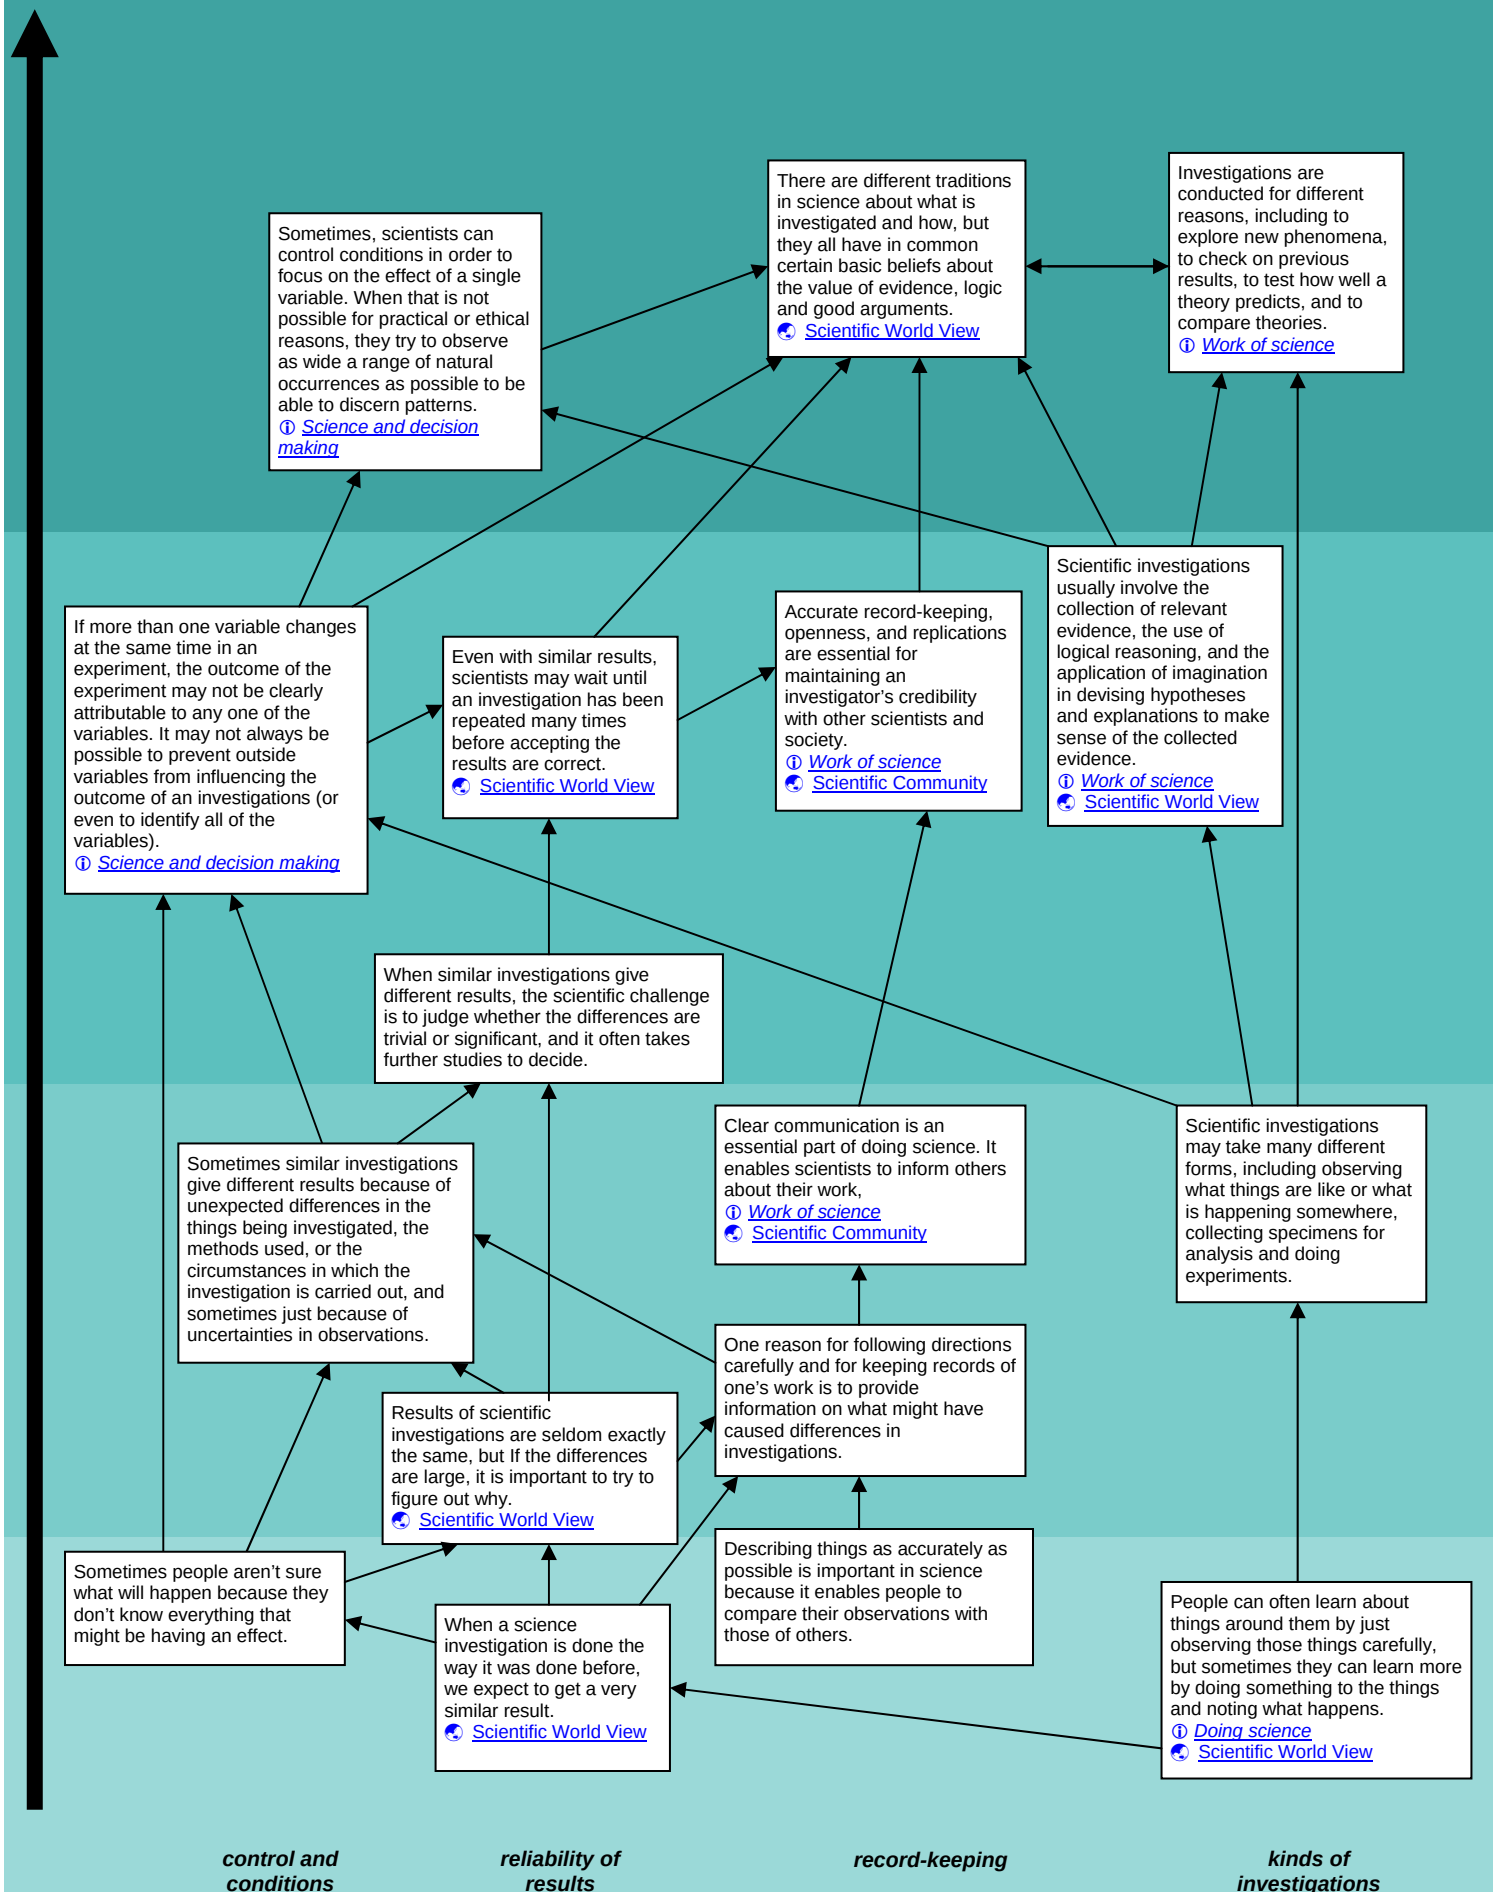

evidence of plates

earthquakes and volcanos
